The Strategy Of Indirect Approach:

Strategy Sir Basil Henry Liddell Hart,1954 Liddell Hart stressed movement flexibility and surprise He saw that in most military campaigns dislocation of the enemy s psychological and physical balance is prelude to victory This dislocation results from a strategic indirect approach Reflect for a moment on the results of direct confrontation trench war in WW I versus indirect dislocation Blitzkrieg in WW II Liddell Hart is also tonic for business and political planning just change the vocabulary and his concepts fit [The Strategy of Indirect Approach, B.h. Platias,Kōnstantinos Koliopoulos,2017 Masterfully crafted and surprisingly modern History of the Peloponnesian War has long been celebrated as an insightful eloquent and exhaustively detailed work of classical Greek history The text is also remarkable for its deep political and military dimensions and scholars have begun to place the work alongside Sun Tzu s *The Art of War* and Clausewitz s *On War* as one of the great treatises on strategy The perfect companion to Thucydides impressive History this volume details the specific strategic concepts at work within the History of the Peloponnesian War and demonstrates through case studies of recent conflicts in Kosovo Afghanistan and Iraq the continuing relevance of Thucydidean thought to an analysis and planning of strategic operations Some have even credited Thucydides with founding the discipline of international relations Written by two scholars with extensive experience in this and related fields *Thucydides on Strategy* situates the classical historian solidly in the modern world of war *Defence Policy of Nigeria: Capability and Context* Charles Quarker Dokubo,Celestine Oyom Bassey,2011-01-20 This Reader provides a structurally coherent explanation and review of the magnified role conception and organizational task expansion for the Nigerian military establishment in foreign policy It argues essentially that one of the most problematic and intractable areas of public policy in Nigeria since the Civil War concerns the development of a professional defence establishment adequate to meet the challenges arising from the altered parameters of iour security environment The correction of this condition is the primary motivation of the Armed Forces modernization and augmentation program that touches upon all elements of Nigeria

s military power This Reader is at once a review and a critique of the major facets of this modernization and augmentation process of the Nigerian armed forces within the operative context of the changing dimension of threat perception and the strategic parameters that have guided Nigerian military planning since the Civil War in 1970

Bernard Brodie and the Foundations of American Nuclear Strategy Barry Howard Steiner, 1991 Steiner analyzes how and why Brodie s understanding of weapons of unparalleled explosive force led him to posit the need for revolutionary strategic thinking in broadminded analytic method and in the focus upon cities as nuclear targets He shows the tremendous effect Brodie s work had on the intellectual climate in which policy is determined particularly in his frequent combatting of conventional wisdom

If War Comes Tomorrow? General Makhmut Akhmetovich Gareev, 2013-11-05 Military affairs have been affected by major changes in recent years The bipolar world of two superpowers has gone The Cold War and the global military confrontation that accompanied it have ended A new military and political order has emerged in the world but the world has not become more stable indeed wars and armed conflict have become much more common Forecasting the contours of future armed conflict is no easy task at such times but this is the primary objective of *If War Comes Tomorrow* Focusing on the impact of new technologies General Gareev considers whether war is still a continuation of politics by other means or whether the political ideological and technical transformation have broken that connection He explores the linkage between threats to Russian national interests and war as an instrument of policy in great detail and concludes that there is very little prospect either of nuclear war or widespread conventional war However he does see local armed conflicts and local wars increasing with greater emphasis on subversion He argues that coming decades will see a shift towards a reliance upon indirect means to accomplish limited political ends and analyses both information warfare and the revolution in military affairs from this perspective
