The Story Of Music:

The Story of Music Howard Goodall,2014-01-07 Why did prehistoric people start making music What does every postwar pop song have in common A masterful tour of music through the ages Booklist starred review From Mozart to Motown and beyond this racily written learned and often shrewdly insightful social history reveals music s role in our societies as well as its power to affect us on a personal level The Daily Telegraph Once a building block of communication and social ritual today music is also a worldwide tangle of genres industries and identities But how did we get from single notes to multilayered orchestration from prehistoric instruments like bone flutes to modern day pop In this dynamic tour acclaimed composer and broadcaster Howard Goodall leads us through the development of music as it happened idea by idea In Goodall s telling each innovation that we now take for granted harmony notation dance music recording strikes us anew And along the way Goodall gives listeners a crash course in how music works on a technical level The story of music is the story of human ambition the urge to invent to connect to rebel Offering a lively zip through some forty five millennia jumping back and forth between classical folk and pop Howard Goodall s beautifully accessible and entertaining ode to joy is a groundbreaking look at just how far we ve come The Sunday Times London

perhaps not a sufficient knowledge of musical science to read with profit the large and exhaustive standard histories The chronological table is entirely new It has been prepared with great care and contains many important dates which could not be introduced into the body of the work without needlessly encumbering its pages Church Music Review and Official Bulletin of the American Guild of Organists ,1904 The Etude Music Magazine ,1926 **Catalogue of (printed) music.
