The Unicity Opportunity Unicity Australia:

Proximity Levinas, Blanchot, Bataille and Communication Joseph Libertson, 2012-12-06 The problematic reality of an alterity implicit in the concept of communication has been a consistent attestation in formal discourse The rapport of thought to this alterity has been consistently described as a radical inadequation By virtue of the communicational economy which produces discontinuity and relation illumination and the possibility of consciousness an opacity haunts the familiarity of comprehension Consciousness spontaneity is limited by the difference or discontinuity of the exterior thing of the exterior subject or intersubjective other and of the generality of existence in its excess over comprehension s closure An element implicit in difference or discontinuity escapes the power of comprehension and even the possibility of manifestation Within the system of tendencies and predications which characterizes formal discourse however this escape of alterity is most often understood as an escape which proceeds from its own substantiality the unknowable in itself of things of subjects and of generality Alterity escapes the power of comprehension on the basis of its power to escape this power That which escapes the effectivity of consciousness escapes on the basis of its own effectivity For this reason the rapport of inadequation described by the escape may function in formal discourse as a correlation The inadequation of comprehension and exteriority may function as the vicissitude of a larger adequation The latent principles of this adequation are power and totalization

Islam and the Challenge of Democracy Khaled Abou El Fadl, 2015-05-20 The events of September 11 and the subsequent war on terrorism have provoked widespread discussion about the possibility of democracy in the Islamic world Such topics as the meaning of jihad the role of clerics as authoritative interpreters and the place of human rights and toleration in Islam have become subjects of urgent public debate around the world With few exceptions however this debate has proceeded in isolation from the vibrant traditions of argument within Islamic theology philosophy and law Islam and the Challenge of Democracy aims to correct this deficiency The book engages the reader in a rich discourse on the challenges of democracy in contemporary Islam The collection begins with a lead essay by Khaled Abou El Fadl who argues that democracy especially a constitutional democracy that protects basic individual rights is the form of government best suited to promoting a set of social and political values central to Islam Because Islam is about submission to God and about each individual s responsibility to serve as His agent on Earth Abou El Fadl argues there is no place for the subjugation to human authority demanded by authoritarian regimes The lead essay is followed by eleven others from internationally respected specialists in democracy and religion They address challenge and engage Abou El Fadl s work The contributors include John Esposito Muhammad Fadel Noah Feldman Nader Hashemi Bernard Haykel Muqtedar Khan Saba Mahmood David Novak William Quandt Kevin Reinhart and Jeremy Waldron
