Designing Fashion's Future Alice Payne,2020-12-10 How do fashion designers design How does design function within the industry How can design practices open up sustainable pathways for fashion s future Designing Fashion s Future responds to these questions to offer a fresh understanding of design practices within the sprawling shifting fashion system Fashion design is typically viewed as the rarefied practice of elite professionals or else as a single stage within the apparel value chain Alice Payne shows how design needn t be reduced to a set of decisions by a designer or design team but can instead be examined as a process object or agent that shapes fashion s material and symbolic worlds Designing Fashion s Future draws on more than 50 interviews with industry professionals based in Australia Asia North America Europe and the United Kingdom These diverse perspectives from multinational retailers independent and experimental contexts ground the discussion in contemporary industry practices

Evaluative Inquiry for Systemic Change Emily F. Gates,Pablo Vidueira,2025-09-29 In a world where social ecological health and other problems are influenced by multiple intersecting systems why do most interventions target single factor solutions Why does so much evaluation settle for incremental change and how could it contribute instead to deeper lasting transformative change Authors Emily F Gates and Pablo Vidueira make two interconnected arguments in this book they critique the fixed approach of traditional program evaluation and policy analysis and they advance an alternative approach centered on changing systems and developing the value of efforts toward change They demonstrate that systemic change that embeds evaluative inquiry is a theoretically supported practical way to work toward fundamental social change with lasting impact

Information Design Unbound Sheila Pontis,Michael Babwahsingh,2023-10-05 As everyday tasks grow more confusing and as social and global problems grow more complex the information designer s role in bringing clarity has reached a new level of importance In order to have a positive impact they must go beyond conventional approaches to uncover real needs make insightful connections and develop effective solutions Information Design Unbound provides a clear engaging introduction to the field and prepares students to be strategic thinkers and visual problem solvers who can confidently make sense in a changing world Sheila Pontis and Michael Babwahsingh present a holistic view of information design synthesizing decades of research cross disciplinary knowledge and emerging practices The book opens by laying a foundation in the field first painting the bigger picture of what it is and how it originated before explaining the scientific and cultural dimensions of how people perceive and understand visual information A discussion of professional practices ethical considerations and the

expanding scale of challenges sheds light on the day to day work of information designers today Detailed chapters then delve into the four areas that are integral to all types of information design work visual thinking research sensemaking and design The final section of the book puts everything together with detailed project walk throughs in areas such as icon design instructions wayfinding organizational strategy and healthcare system change Written and designed with students needs in mind this book brings information design fundamentals to life exercises allow students to put lessons directly into practice case studies demonstrate how information designers think and work and generous illustrations clarify concepts in a visually engaging way Information Design Unbound helps beginning designers build the mindset and skillset to navigate visual communication challenges wherever they may arise

Redesigning CapEx Strategy: A Groundbreaking Systems Approach to Sustainably Maximize Company Cash Flow Fredrik Weissenrieder, Daniel Lindén, 2022-09-06 This book is about more than redesigning capex It s about transforming the way you look at capital allocation and seeing that you re completely wrong It s about realizing that capex strategy is the enterprise s strategy John Williams CEO Domtar Corporation The systems thinking approach to capex decisions that can double your company cash flow The way most business leaders deploy capex right now is nothing short of a train wreck Very few look at their asset base as a collective network rather they see their assets as standalone performers have no strategy for the role each asset plays in the grand scheme of things and therefore fail to invest in their network for the long term to generate more cash for the business asset by asset Redesigning CapEx Strategy provides an effective and almost painfully obvious solution to some of the greatest missed opportunities happening in business today In this resource that will revolutionize your capex decision making globally renowned capex strategists Fredrik Weissenrieder and Daniel Lind n share their proven methodology for focusing on the entire range of potential strategies and cash flow outcomes for hundreds of scenarios across a multi asset base It s not about incremental improvement It s a radical transformation of how you allocate capital and avoid throwing good money after bad With a capex strategy that accounts for each asset s role as part of the asset network there s never a question about the best path forward Redesigning CapEx Strategy doesn t just redesign your capex strategy it helps you redesign your entire company s future

Proceedings of the Institution of Civil Engineers ,2009 The Global Citizen Donella H. Meadows,1991 In The Global Citizen Donella Meadows challenges us to view the world as an interconnected system for which we are all responsible This collection of the best of Meadows s environmental writings demonstrates her rare ability to discuss complex issues such as population poverty and development and solid waste disposal in a clear concise engaging way for a wide audience The Handbook of Sustainability Literacy Arran Stibbe,2009-09 What are the skills people need to survive in the 21st century Among the skills attributes and values described in this volume are values reflection coping with complexity permaculture design transition skills advertising awareness effortless action and ecological intelligence Teaching Sustainability Wendy Petersen Boring,William Forbes,William Forbes (Professor of geography),2013 American colleges and universities have been relatively quick to address the challenge of sustainability in operations Ironically they have been slower to respond in regard to their core mission educating students Teaching sustainability aims to redress this shortcoming by opening doors to education for sustainability in the humanities and social sciences The essays in this collection are richly diverse They investigate ways sustainability education pushes back against traditional disciplines while it simultaneously benefits from the perspectives and skills these fields have to offer They also address big questions such as how to make education meaningful how to examine hidden assumptions underlying current curricula and how a focus on sustainability can answer critics of contemporary higher education The heart of teaching sustainability is reflection and advice on pedagogy From these richly diverse case studies important common themes emerge the symbiotic relationship between classroom and campus operations techniques for transforming the campus itself from merely a setting to a learning laboratory and the potential of community partners for teaching sense of place An equally significant theme is the overlap between sustainability education and emerging best practice in pedagogy Essays on theory and practice individual and collaborative projects service learning and consequential activities all exemplify how sustainability and deep learning go hand and hand Like sustainability itself the volume infuses theory with practical application The contributors demonstrate the ways in which

a single course can serve as a powerful change agent for an entire campus how to build bridges between faculty and administrators and even how to move forward on modest budgets The authors themselves constitute a network of advisors
