Army Air Force,2017-01-12 The Boeing B 29 was one of the most sophisticated aircraft of WWII It featured many innovations including guns that could be fired by remote control and pressurized crew compartments It was also the heaviest production plane of the war with terrific range and bomb carrying capabilities Carrying a crew of ten the Superfortress devastated Japan in a series of raids in 1944 45 Finally in August of 1945 the B 29s Enola Gay and Bock s Car dropped the atomic bombs and forced Japan to surrender Originally printed by the U S Army Air Force this B 29 Airplane Commander Pilot s Training Manual taught pilots everything they needed to know about the Superfortress Classified Restricted the text was declassified long ago and is here reprinted in book form THIS MANUAL is the text for your training as a B 29 pilot and air plane commander The Air Forces most experienced training and supervisory personnel have collaborated to make it a complete exposition of what your pilot duties are how each duty will be performed and why it must be performed in the manner prescribed The techniques and procedures described in this book are standard and mandatory In this respect the manual serves the dual purpose of a training checklist and a working handbook Use it to make sure that you learn everything described herein Use it to study and review the essential facts concerning everything taught Such additional self study and review will not only advance your training but will alleviate the burden of your already overburdened instructors This training manual does not replace the Technical Orders for the airplane which will always be your primary source of information concerning the B 29 so long as you fly it This is essentially the textbook of the B 29 Used properly it will enable you to utilize the pertinent Technical Orders to even greater advantage **Boeing Jet Airplane Pilots Training Manual** Boeing Company.
