English-Urdu Dictionary of Christian Terminology Liberius Pieterse,1976 **Popular Oxford Practical Dictionary** ,1980 **A Global Conceptual History of Asia, 1860-1940** Hagen Schulz-Forberg,2015-10-06 Contributors to this volume explore the changing concepts of the social and the economic during a period of fundamental change across Asia They challenge accepted explanations of how Western knowledge spread through Asia and show how versatile Asian intellectuals were in introducing European concepts and in blending them with local traditions **Dictionnaires** ,

World Dictionaries in Print ,1983 **The Travels and Adventures of Serendipity** Robert K. Merton,Elinor Barber,2011-11-28 From the names of cruise lines and bookstores to an Australian ranch and a nudist camp outside of Atlanta the word serendipity that happy blend of wisdom and luck by which something is discovered not quite by accident is today ubiquitous This book traces the word s eventful history from its 1754 coinage into the twentieth century chronicling along the way much of what we now call the natural and social sciences The book charts where the term went with whom it resided and how it fared We cross oceans and academic specialties and meet those people both famous and now obscure who have used and abused serendipity We encounter a linguistic sage walk down the illustrious halls of the Harvard Medical School attend the serendipitous birth of penicillin and meet someone who manages serendipity for the U S Navy The story of serendipity is fascinating that of The Travels and Adventures of Serendipity equally so Written in the 1950s by already eminent sociologist Robert Merton and Elinor Barber the book though occasionally and most tantalizingly cited was intentionally never published This is all the more curious because it so remarkably anticipated subsequent battles over research and funding many of which centered on the role of serendipity in science Finally shortly after his ninety first birthday following Barber s death and preceding his own by but a little Merton agreed to expand and publish this major work Beautifully written the book is permeated by the prodigious intellectual curiosity and generosity that characterized Merton s influential *On the Shoulders of Giants* Absolutely entertaining as the history of a word the book is also tremendously important to all who value the miracle of intellectual discovery It represents Merton s lifelong protest against that rhetoric of science that defines discovery as anything other than a messy blend of inspiration perspiration error and happy chance anything other than serendipity **Lexicography** Salonee Priya,2009 Lexicography is a realm of growing academic specialization Dictionaries map meaning onto use We have innumerable dictionaries on different subjects and for different purposes which we keep referring to time and again Despite the frequency with which dictionaries are unquestioningly consulted many have little idea of what actually goes into making them or how meanings are definitively ascertained We have become so accustomed to using dictionaries that we fail to take notice of the effort and time spent in their making

Understanding the finer nuances of the art of dictionary making will be of interest to everyone. With changing times and the penetration of technology, the bulkier forms of dictionaries have given way to softer forms. This book updates the reader to the changing notions of the lexicon and dictionary making in the new realm of modern technology and newer electronic tools. The book introduces us to lexicography and leads us to dictionaries for general and specific purposes. It examines dictionary compilation and research and enables compilers, users, educators, and publishers to look anew at the art of lexicography. It duly takes into account the fact that dictionaries are meant to fulfill the needs of specific user groups and reflects the same in the chapters devoted to various professional dictionaries which have recently achieved widespread recognition in the lexicographical literature. A good read for students of linguistics, teachers, and translators, apart from general readers interested in knowing the intricate art of making a dictionary.
