The Rising Sun John Toland :

The Rising Sun John Toland, 2003-05-27 The Rising Sun is quite possibly the most readable yet informative account of the Pacific war Chicago Sun Times This Pulitzer Prize winning history of World War II chronicles the dramatic rise and fall of the Japanese empire from the invasion of Manchuria and China to the atomic bombing of Hiroshima and Nagasaki Told from the Japanese perspective The Rising Sun is in the author's words a factual saga of people caught up in the flood of the most overwhelming war of mankind told as it happened muddled ennobling disgraceful frustrating full of paradox In weaving together the historical facts and human drama leading up to and culminating in the war in the Pacific Toland crafts a riveting and unbiased narrative history In his Foreword Toland says that if we are to draw any conclusion from *The Rising Sun* it is that there are no simple lessons in history that it is human nature that repeats itself not history Unbelievably rich readable and exciting The best parts of Toland's book are not the battle scenes but the intimate view he gives of the highest reaches of Tokyo politics Newsweek

The Rising Sun John Toland, 2011-10-04 A chronicle of the World War II rise and fall of the Japanese empire from the invasion of Manchuria and China to the atomic bombing of Hiroshima and Nagasaki from the Japanese perspective

Rising Sun John Toland, 1982-10-01

Atomic Salvation Tom Lewis, 2020-07-20 A thought provoking analysis of the bombing of Hiroshima and Nagasaki and what might have happened if conventional weapons were used instead It has always been a difficult concept to stomach that the atomic bombs dropped on Hiroshima and Nagasaki in 1945 causing such horrific suffering and destruction also brought about peace Attitudes toward the event have changed through the years from grateful relief that World War II was ended to widespread condemnation of the United States Atomic Salvation investigates the full situation examining documents from both Japanese and Allied sources but also using in depth analysis to extend beyond the mere recounting of statistics It charts the full extent of the possible casualties on both sides had a conventional assault akin to D Day gone ahead against Japan The work is not concerned solely with the military necessity to use the bombs it also investigates why that necessity has been increasingly challenged over the successive decades Controversially the book demonstrates that Japan would have suffered far greater casualties likely around 28 million if the nation had been attacked in the manner by which Germany was defeated by amphibious assault artillery and air attacks preceding infantry insertion and finally by subduing the last of the defenders of the enemy capital It also investigates the enormous political pressure placed on America as a result of their military situation The Truman administration had little choice but to use the new weapon given the more than a million deaths that Allied forces would undoubtedly have suffered through conventional assault By charting reaction to the bombings over time Atomic Salvation shows that there has been relentless pressure on the world to condemn what at the time was seen as the best and only military solution to end the conflict Never has such an exhaustive analysis been made of the necessity behind bringing World War II to a halt

Last Stand on Bataan Christopher L. Kolakowski, 2016-03-14 In the opening days of World War II a joint U S Filipino army fought

desperately to defend Manila Bay and the Philippines against a Japanese invasion. Much of the five month campaign was waged on the Bataan Peninsula and Corregidor Island. Despite dwindling supplies and dim prospects for support the garrison held out as long as possible and significantly delayed the Japanese timetable for conquest in the Pacific. In the end the Japanese forced the largest capitulation in U S military history. The defenders were hailed as heroes and the legacy of their determined resistance marks the Philippines today. Drawing on accounts from American and Filipino participants and archival sources this book chronicles these critical months of the Pacific War from the first air strikes to the fall of Bataan and Corregidor.

Hellships Down Michael Sturma, 2021-03-18. On 12 September 1944 a wolfpack of U S submarines attacked the Japanese convoy HI 72 in the South China Sea. Among the ships sunk were two carrying Allied prisoners of war. Men who had already endured the trials of Japanese captivity faced a renewed struggle for survival at sea. This book tells the broader story of the HI 72 convoy through the stories of two survivors: Arthur Bancroft who was rescued by an American submarine and Charles Rowley Richards who was rescued by the Japanese. The story of these men represents the thousands of Allied POWs who suffered not only the atrocious conditions of these Japanese hellships but also the terror of friendly fire from their own side's submarines. For the first time the personal political and legal aftermath of these men's experiences is fully detailed. At its heart this is a story of survival. Charting the survivors' fates from rescue to their attempts at retribution this book reveals the trauma that continued long after the war was over.

1942 Winston Groom, 2007-12-01. America's first year in World War II chronicled in this page-turner by the Pulitzer Prize nominated author of *Forrest Gump* and *The Generals*. Publishers Weekly. On December 7, 1941, an unexpected attack on American territory pulled an unprepared country into a terrifying new brand of warfare. To the generation of Americans who lived through it, the Second World War was the defining event of the twentieth century and the defining moments of that war were played out in the year 1942. This account covers the Allies' relentless defeats as the Axis overran most of Europe, North Africa, and the Far East. But by midyear the tide began to turn. The United States finally went on the offensive in the Pacific. In the West the British defeated Rommel's panzer divisions at El Alamein while the US Army began to push the Germans out of North Africa. By the year's end the smell of victory was in the air. 1942, told with Winston Groom's accomplished storyteller's eye, allows us into the admirals' strategy rooms, onto the battlefronts, and into the heart of a nation at war. When not drawing in readers with the narrative, Groom is impressing them with his masterful analyses. *The Atlanta Journal-Constitution*. Groom has done an artful job of blending the many stories of 1942. *The Anniston Star*.

[Eagle Against the Sun](#) Ronald H. Spector, 2020-11-03. The best book by far on the Pacific War. *The New York Times Book Review*. This classic one-volume history of World War II in the Pacific draws on declassified intelligence files, British, American, and Japanese archival material, and military memoirs to provide a stunning and complete history of the conflict. This superbly readable, insightful, gripping Washington Post Book World contribution to WWII history combines impeccable research with electrifying detail and offers provocative interpretations of this brutal forty

four month struggle Author and historian Ronald H Spector reassesses US and Japanese strategy and shows that the dual advance across the Pacific by MacArthur and Nimitz was more a pragmatic solution to bureaucratic doctrinal and public relations problems facing the Army and Navy than a strategic calculation He also argues that Japan made its fatal error not in the Midway campaign but in abandoning its offensive strategy after that defeat and allowing itself to be drawn into a war of attrition Spector skillfully takes us from top secret strategy meetings in Washington London and Tokyo to distant beaches and remote Asian jungles with battle weary GIs He reveals that the US had secret plans to wage unrestricted submarine warfare against Japan months before Pearl Harbor and shows that MacArthur and his commanders ignored important intercepts of Japanese messages that would have saved thousands of lives in Papua and Leyte Throughout Spector contends that American decisions in the Pacific War were shaped more often by the struggles between the British and the Americans and between the Army and the Navy than by strategic considerations Spector vividly recreates the major battles little known campaigns and unfamiliar events leading up to the deadliest air raid ever adding a new dimension to our understanding of the American war in the Pacific and the people and forces that determined its outcome

Military Tribunals and Presidential Power Louis Fisher,2005 Offers coverage of wartime extra legal courts Focusing on those periods when the Constitution and civil liberties have been most severely tested by threats to national security Fisher critiques tribunals called during the presidencies of Washington Madison Jackson Lincoln Andrew Johnson Wilson Franklin Roosevelt and Truman

The Rising Sun John Toland,1970 Comprehensive account of the military and political events that led to Pearl Harbor the war in the Pacific and Japan s defeat based on interviews with participants and told from a Japanese point of view
