The Postcolonial Condition of Architecture in Asia Francis Chia Hui Lin, 2022-02-16 This book provides a bidirectional investigation of Asia s spatiotemporality by asking how Asia is located and how localities are Asianized Historical and theoretical inquiries into architecture and urbanism in order to trace a notional common divisor are integrated with readings of this Asian imagery Such a common divisor is conditioned to Asia s phenomenal postcolonial subjectivation and showcases Asia s unique character This book contends that the postcolonial condition of architecture in Asia suggests a potential and critical bridge to better understanding of the region Theoretically display ness is a strategic and allegoric carrier that is in the focus of this book in order to emphasize the quality of display in a broader sense of time and space Asia s architectural and urban spectacle thus is meaningfully magnified and intensified with this notion of display ness to ground the cohesive abstraction among ideological discourse production innovative theorizations and empirical phenomena in contemporary scholarship
