period of around 500 years The Romans Greeks Egyptians the Moors and the Ottomans all in their turn reigned supreme until apathy arrogance and laziness led to their downfall However Mankind would never become extinct as new societies inevitably replace existing social structures sooner or later By 2016 AD the great and so called democratic Western Empire which began with the Age of Discovery during the 15th century was tired corrupt and had run out of ways of oppressing cheating and taxing the societies it was supposed to represent democratically For decades the pressure had been building conflict had been growing and it became obvious that Democracy in the Western World was under threat It had run its natural course and would be unworkable if the West were to survive Western values and the religion of Islam were non compatible and the conflict became so intense that the system of democracy would fail Ethnic tensions increased violence and disorder followed and people longed for a return to their traditional values Chaos requires strong leadership Men of authority Men like Julius Caesar who could restore the natural order Bring in a New Order If the West is to survive then Democracy must be sacrificed The question is what happens next Imagine one society with no countries no religion and no governments Imagine the future and find out what the New World Order has in store for you [Catalog of Copyright Entries](#) Library of Congress.
