Think Before Its Too Late Edward De Bono:

Think! Edward de Bono,2009-07-28 The world is full of problems and conflicts So why can we not solve them According to Edward de Bono world thinking cannot solve world problems because world thinking is itself the problem And this is getting worse we are so accustomed to readily available information online that we search immediately for the answers rather than thinking about them Our minds function like trying to drive a car using only one wheel There s nothing wrong with that one wheel conventional thinking but we could all get a lot further if we used all four De Bono examines why we think the way we do from a historical perspective and uses some of his famous thinking techniques such as lateral thinking combined with new ideas to show us how to change the way we think If we strengthen our ability and raise our thinking level other areas of our life both personal and business success will improve De Bono is the master of the original big concept book and his enticement to us to use our minds as constructively as possible should appeal to a whole new generation of fans

Brain Changer David Disalvo,2013-11-12 Let s be honest You ve tried the sticky note inspirations the motivational calendar and the cute but ineffective carpe diem mug yet your attitude hasn t changed It s time to apply cutting edge science to the challenges of daily life While everyone desires self improvement we are quickly frustrated when trying to implement the contradictory philosophies of self appointed self help gurus Too often their advice is based on anecdote and personal opinion not real research Bestselling author of *What Makes Your Brain Happy and Why You Should Do the Opposite* David DiSalvo returns with *Brain Changer* How Harnessing Your Brain s Power to Adapt Can Change Your Life Drawing on the latest research in neuroscience cognitive psychology behavioral economics communications and even marketing DiSalvo replaces self help with science help He demonstrates how the brain s enormous capacity to adapt is the most crucial factor influencing how we feel and act a factor that we can control to change our lives Findings show our brains are fluid and function much like a feedback loop stimulants from both our environment and from within ourselves catalyze changes in the brain s response That response then elicits additional inputs that the brain identifies and analyzes to further tailor its response DiSalvo shows that the greatest internal tool we have to affect the feedback loop is metacognition thinking about thinking Littered with relatable examples and tackling major aspects of our lives including relationships careers physical health and personal development *Brain Changer* shows you how to harness metacognition to enrich your life [Doing Good Things Better](#) Brian Martin,2011-12-08 This is a book for how to improve what you are already doing well How to improve your writings as an academic playing skills as a musician jogging as a runner or honour codes as a good citizen and friend
