chemistry by offering a dynamic provocative and relevant view of the topic and its importance to society and our daily lives. Three themes are stressed throughout the text: developing chemical thinking and chemical vision and refining problem solving skills. Many chapters in this edition have been rewritten and rearranged to vitalize the topics and to include interesting examples, analogies, and images. *Fundamentals of Chemistry* Ralph A. Burns, 2003. For one semester preparatory chemistry courses or general purpose introductory chemistry courses. This clearly written, well illustrated, versatile textbook provides thorough coverage of chemistry with a balance of problem solving skills, real world applications, and an emphasis on critical thinking and the process of science. A supporting theme throughout the text continually emphasizes that chemistry is everywhere.
