Using the Agricultural, Environmental, and Food Literature Barbara S. Hutchinson, Antoinette Paris-Greider, 2002-07-17

This reference provides the groundwork tools and terminology required when conducting specialized searches for information and resources pertaining to traditional and emerging fields of agriculture. The editors present 16 contributions from librarians and other information workers that offer information on research resources across the academic. The Exchange, 1999

Agriculture and Rural Development in a Globalizing World Prabhu Pingali, Gershon Feder, 2017-05-08

Rapid structural transformation and urbanization are transforming agriculture and food production in rural areas across the world. This textbook provides a comprehensive review and assessment of the multi-faceted nature of agriculture and rural development, particularly in the developing world where the greatest challenges occur. It is designed around five thematic parts: Agricultural Intensification and Technical Change; Political Economy of Agricultural Policies; Community and Rural Institutions; Agriculture, Nutrition, and Health; and Future Relevance of International Institutions. Each chapter presents a detailed but accessible review of the literature on the specific topic and discusses the frontiers in research and institutional changes needed as societies adapt to the transformation processes. All authors are eminent scholars with international reputations who have been actively engaged in the contemporary debates around agricultural development and rural transformation.

**Agricultural Economics Report** Michigan State University. Department of Agricultural Economics, 1999

**Research Methodology in Agricultural Sciences** Jayne Njeri Mugwe, Steven Runo, 2026-01-01

This authored textbook provides a comprehensive guide to the methods and methodologies currently used in agricultural research, covering the entire process from conceptualisation to reporting. Recognising the interdisciplinary nature of agricultural science, the book integrates both biophysical and social science approaches, including experimental design, on-farm research, surveys, qualitative and mixed methods research, and impact evaluation. It also addresses both quantitative and qualitative data analysis. In addition to methodological guidance, the book offers practical support in scientific writing, thesis development, journal article publication, and science communication. Theories and concepts are clearly explained using real-world examples, flow diagrams, photographs, and case studies to enhance understanding. Designed to support students and early career researchers, this book helps ease the steep learning curve associated with conducting credible, ethical, and impactful research. It will be a valuable resource for students, faculty, researchers, professionals, agricultural scientists, and policy makers in both national and international contexts.

Libraries Beyond Their Institutions Rita Pellen, William Miller, 2014-06-03
