

# Coasting Theory Lectures Notes

Markus Hupfer and members of the team!

September 7, 2024

These are the notes for the first lecture, *Foundations of Coasting Theory*. These are generalised and give insights on problems for all of the course parts. Some are generalised, while some are for the course, the latter contribution to Coasting Theory and the book of Markus and Peter (forthcoming at Springer-Verlag). I also used several other sources for historical, historical topics in Part II course part of Coasting on Coasting Theory and Coasting Theory given by Professor Peter Hupfer, and the other parts given from a Coasting Theory for Submarine Transportation course given by Professor Tim Gorman. I also included some from Robert Fisher's 1982 course, Applied Maths for the Ship Transportation. The last section of the notes is based on Hugh Roberts course notes, "Coastal Road Coasting".

All credits go to those who are not my fault.
