Contrastive Analysis Carl James 1980 :

Contrastive Analysis Carl James,1980 What is contrastive analysis The psychological basic of contrastive analysis The linguistic components of contrastive analysis Microlinguistic contrastive analysis Macrolinguistics and contrastive analysis Pedagogical exploitation of contrastive analysis Some issues of contention **Contrasting Languages** Tomasz P. Krzeszowski,1990 TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by approaching language from an interdisciplinary perspective TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints High quality standards are ensured through anonymous reviewing *The (Un)Translatability of Qur'anic Idiomatic Phrasal Verbs* Ali Yunis Aldaresh,2021-07-27 Qur anic idiomaticity in its all aspects poses a great deal of challenge to Qur an readers learners commentators and translators One of the most challenging aspects of Qur anic idiomaticity is Qur anic idiomatic phrasal verbs where significances of proper Arabic verbs are entirely fused with significances of prepositions following them to produce new significances that have nothing to do with the basic significances of those verbs and prepositions By examining a corpus of ten of the most influential English translations of the Qur an this study scrutinizes how some translators of the Qur an have dealt with the phenomenon of Qur anic idiomatic phrasal verbs the difficulties that they have encountered when translating them into English and the strategies that they have employed in their attempts to overcome the inherent ambiguity of such expressions and provide their functional pragmatic equivalents for English readership The study proposes a working model for analysing and assessing the translation of the Qur anic idiomatic phrasal verbs and provides a number of theory based recommendations for translators in general and Qur an translators in particular

Translating Irony between English and Arabic Raymond Chakhachiro,2019-01-14 This book challenges entrenched literary views that promote the impracticality of linguistic stylistic and functional approaches to the analysis and translation of irony It considers these scientific fields of enquiry as the building blocks on which ironic devices in English and Arabic are grounded and according to which the appropriateness of the methods of translation in the literature is assessed in a quest to pin down an interactive model for the interpretation and translation of irony The book ventures into contrastive linguistic and stylistic analyses of irony in Arabic and English from literary linguistic and discourse perspectives It sheds light on the interpretation and the linguistic realisation of irony in Arabic and English through an interdisciplinary approach and

consequently identifies similarities and discrepancies in the form and function of ironic devices between these languages As such it will appeal to professional translators instructors and students of translation as well as language learners language teachers and researchers in cross cultural and inter pragmatic disciplines Topics in Cognitive Linguistics Brygida Rudzka-Ostyn,1988-01-01 This volume presents new developments in cognitive grammar and explores its descriptive and explanatory potential with respect to a wide range of language phenomena These include the formation and use of locationals causative constructions adjectival and nominal expressions of oriented space morphological layering tense and aspect and extended uses of verbal predicates There is also a section on the affinities between cognitive grammar an early linguistic theories both ancient and modern **Papers and Studies in Contrastive Linguistics** ,1983 Vol 1 contains papers delivered at the 2d Karpacz Conference on Contrastive Linguistics 1971 **Contrastive Linguistics** Wenguo Pan,Tham Wai Mun,2007-07-10 Contrastive Linguistics is the first book written by a linguist from mainland China on the histories and principles of comparing and contrasting Chinese and Western languages specifically English From Wilhelm von Humboldt s initial study in comparative linguistics to the present day traditional scholarship in contrastive linguistics has taken a Western perspective and shown how foreign languages relate to the Indo European language family However such a view has a limited scope and there is an alternative history to contrastive linguistics This book is an attempt by Professor Wenguo Pan to redress the balance in contrastive linguistics comparing Western languages to Chinese rather than vice versa He provides a survey of contrastive linguistics in China throughtout the past century and aims to open a window for the world to see what the new generations of Chinese linguists are doing in this exciting field and to start a dialogue between scholars of different backgrounds and linguistic traditions Contrastive Linguistics looks at the history of this discipline both in Europe and in China Professor Pan presents a survey of the historical philosophical and methodological foundations of the discipline but also examines its scope in relation to general comparative anthropological and applied linguistics This book will be of interest to academics interested in a new perspective on contrastive linguistics or Chinese linguistics **Studies in Contrastive Linguistics and Error Analysis: Descriptive contrastive analysis of English and German** Dietrich Nehls,1979 **Dictionnaires** , *Studies in Contrastive Linguistics and Error Analysis* Dietrich Nehls,1979 **Encyclopedia of Literary Translation Into English: A-L** O. Classe,2000 Interlingual Lexicography Reinhard Rudolf Karl Hartmann,2012-02-14 Selection of 24 essays by the dictionary researcher Reinhard Hartmann on Interlingual Lexicography a genre much neglected in the literature including interdisciplinary approaches to translation equivalence its analysis in contrastive text linguistics and its treatment in the bilingual dictionary with particular attention to the user perspective in English and German Focusing on EFL Reading Rahma Al-Mahrooqi,Adrian Roscoe,2014-06-02 Reading a complex and multi faceted skill is essential for life and academic success While its mysteries still baffle first language research the nature of reading in a foreign language presents an even greater puzzle However given reading s importance for EFL students who

study their specializations in English and whose future employment may depend on their competence in it researchers must continue to investigate foreign language reading and devise ways of improving students capacity for it Hence this book with its thorough coverage of up to date theory practice and research will be of great value in today s educational context As they strive to understand reading and help EFL students to acquire it researchers and language teachers will find much of value here
