Building on achievements of previous civilizations research done during Muslim era 700 1500 CE lead to the improvement and understanding in various fields of science art and culture and not only benefited mankind but also formed the basis of modern research and European Renaissance This account of various developments is aimed to provide the missing link between the middle ages and modern times It provides a dynamic picture to not only Muslim generations but to generations of every faith and nation It also highlights the fact that when achievements and potentials of different nations and cultures are put together and worked on the knowledge becomes fruitful and generations make progress with it Contributions to the History of Islamic Civilization Salahuddin Khuda Bukhsh,1929 Books-In-Brief: Studies in Islamic Civilization Ahmed Essa ,Othman Ali ,2012-01-01 Studies in Islamic Civilization draws upon the works of Western scholars to make the case that without the tremendous contribution of the Muslim world there would have been no Renaissance in Europe For almost a thousand years Islam was arguably one of the leading civilizations of the world spanning a geographic area greater than any other It eliminated social distinctions between classes and races made clear that people should enjoy the bounties of the earth provided they did not ignore morals and ethics and rescued knowledge that would have been lost if not forever then at least for centuries The genius of its scholars triggered the intellectual tradition of Europe and for over seven hundred years its language Arabic was the international language of science Strange then that its legacy lies largely ignored and buried in time In the words of Aldous Huxley Great is truth but still greater from a practical point of view is silence about truth By simply not mentioning certain subjects propagandists have influenced opinion much more effectively than they could have by the most eloquent denunciations Studies in Islamic Civilization is a compelling attempt to redress this wrong and restore the historical truths of a golden age that ushered in the Islamic renaissance and as a by product that of the West
