Students are artists using their words and behaviors to create something new and exciting in their lives and in the lives of others. Designed for skills based courses, *Creating Communication* provides students with the basic communication skills necessary to improve their public speaking, group, interpersonal, intercultural, leadership, and interviewing communication. Thorough yet concise, *Creating Communication, Second Edition* covers a full range of topics in a clear, organized, and engaging way. In his distinctive conversational tone, Fujishin encourages students to implement powerful changes in the way they communicate with others, empowering them to create more productive and meaningful lives as artists of communication. [Academic Planning](#) Daniel James Rowley, Herbert Sherman, 2004-03-12

*Academic Planning* examines the importance of building a college or university academic plan alongside the institution's strategic plan. While the strategic plan outlines the various strategies the campus has chosen to make itself more financially stable and compatible with crucial external controls, the most significant offerings of a campus are its academic products: research, teaching service, and intellectual products. It seems apparent that both plans should be developed alongside each other, but evidence suggests that in many cases they are developed independently. In this book, the authors contend that this is a fundamental mistake. **Choice**, 2002. *American Book Publishing Record*, 2006. *The Art of Communication* Randy Fujishin, 2016-09-02

Fujishin employs a distinctively encouraging and conversational approach as he explains the basic communication skills necessary to improve in numerous contexts, including public speaking, small group, interpersonal, intercultural, leadership, interviewing, and technology-based communication. The result is an easy-to-read book that provides the tools to implement powerful changes in the ways you interact with others. [Creating Effective Groups](#) Randy Fujishin, 2013
