*The Town That Didn't Exist* How a copyright trap became a real place tells the whimsical true story of Agloe New York In the 1930s the General Drafting Co created a map and inserted a fake town called Agloe an anagram of the director's initials on a dirt road in the Catskills This was a copyright trap designed to catch competitors stealing their work Author John Atlas details the twist Years later Rand McNally released a map that also showed Agloe General Drafting sued for plagiarism But Rand McNally won Why Because people had looked at the first map driven to the spot and built a general store called Agloe General Store assuming that was the town's name The fake town had willed itself into existence *The Town That Didn't Exist* is a philosophical journey into how maps shape territory It explores the concept of Paper Towns and how fiction can become reality if enough people believe in the lines drawn on a page [Paper Towns](#) John Green, 2014-11-04 *Paper Towns* er
