Contrastive Analysis Carl James:

Contrastive Analysis Carl James,1980 What is contrastive analysis The psychological basic of contrastive analysis The linguistic components of contrastive analysis Microlinguistic contrastive analysis Macrolinguistics and contrastive analysis Pedagogical exploitation of contrastive analysis Some issues of contention [Contrastive Analysis](#) Carl James,1980

Contrastive Analysis C. R. James,2016-03-30 In this important study Carl James reviews the role that contrastive analysis can play in understanding and solving problems in second or foreign language learning and teaching Using both psycholinguistic and linguistic analysis he establishes a sound theoretical basis for CA before going on to illustrate its contribution to the study of linguistic universals bilingualism and language pedagogy The book offers a range of examples to support its arguments enabling readers to grasp the principles and then to pursue their own work in this area Contrastive Analysis presents a successful theoretical and practical case for the value of CA as a research tool both for those studying applied linguistics and for teachers needing to adjust their teaching to the state of knowledge of their students **An**

Introduction to Discourse Analysis Malcolm Coulthard,2014-09-25 The central concern of this book is the analysis of verbal interaction or discourse This first six chapters report and evaluate major theoretical advances in the description of discourse The final chapters demonstrate how the findings of discourse analysis can be used to investigate second language teaching and first language acquisition and to analyse literary texts *Translating Irony between English and Arabic*

Raymond Chakhachiro,2019-01-14 This book challenges entrenched literary views that promote the impracticality of linguistic stylistic and functional approaches to the analysis and translation of irony It considers these scientific fields of enquiry as the building blocks on which ironic devices in English and Arabic are grounded and according to which the appropriateness of the methods of translation in the literature is assessed in a quest to pin down an interactive model for the interpretation and translation of irony The book ventures into contrastive linguistic and stylistic analyses of irony in Arabic and English from literary linguistic and discourse perspectives It sheds light on the interpretation and the linguistic realisation of irony in Arabic and English through an interdisciplinary approach and consequently identifies similarities and discrepancies in the form and function of ironic devices between these languages As such it will appeal to professional translators instructors and students of translation as well as language learners language teachers and researchers in cross cultural and inter pragmatic disciplines **A Contrastive Analysis of Reference in English and Polish** A. Szwedek,1975 [Contrastive Linguistics](#) Wenguo Pan,Tham Wai Mun,2007-07-10 Contrastive Linguistics is the first book written by a linguist from mainland China on the histories and principles of comparing and contrasting Chinese and Western languages specifically English From Wilhelm von Humboldt s initial study in comparative linguistics to the present day traditional scholarship in contrastive linguistics has taken a Western perspective and shown how foreign languages relate to the Indo European language family However such a view has a limited scope and there is an alternative history to contrastive

linguistics This book is an attempt by Professor Wenguo Pan to redress the balance in contrastive linguistics comparing Western languages to Chinese rather than vice versa He provides a survey of contrastive linguistics in China throughout the past century and aims to open a window for the world to see what the new generations of Chinese linguists are doing in this exciting field and to start a dialogue between scholars of different backgrounds and linguistic traditions Contrastive Linguistics looks at the history of this discipline both in Europe and in China Professor Pan presents a survey of the historical philosophical and methodological foundations of the discipline but also examines its scope in relation to general comparative anthropological and applied linguistics This book will be of interest to academics interested in a new perspective on contrastive linguistics or Chinese linguistics
