Hughes,Margaret Nampijja ,Paula Griffiths,Shagoofa Rakhshanda ,George Evans Owino,2024-06-26 Rapid urbanization in low and middle income countries LMICs has triggered a childcare crisis As families move to the city they leave behind extended family and traditional support networks parents and guardians particularly mothers are working long hours outside the home often in informal and unstable jobs In response to the increasing demand a range of informal private and NGO providers have sprung up to provide day and sometimes night care Governments are struggling to respond and the care for children in the early years frequently falls between ministries The combination of these factors in LMIC cities has left children from low income families with substandard childcare which poses a threat to their immediate and long term health and development **Ewaso Ng'iro North Development Authority Integrated Regional Development Plan, 2010-2040** ,2013 **District Development Plan, 1989-1993: Laikipia** ,1989 **Land, Investment & Politics** Jeremy Lind,Doris Okenwa,Ian Scoones,2020 More than ever before the gaze of global investment has been directed to the drylands

of Africa but what does this mean for these regions pastoralists and other livestock keepers and their livelihoods Will those who have occupied drylands over generations benefit from the developments as claimed or is this a new type of territorialisation exacerbating social inequality This book s detailed local studies of investments at various stages of development from Kenya Tanzania Somaliland Ethiopia explore for the first time how large land resource and infrastructure projects shape local politics and livelihoods Land and resources use based on ancestral precedence and communal practices and embedded regional systems of trade are unique to these areas yet these lands are now seen as the new frontier for development of national wealth By examining the ways in which large scale investments enmesh with local political and social relations the chapters show how even the most elaborate plans of financiers contractors and national governments come unstuck and are re made in the guise of not only states grand modernist visions but also those of herders and small town entrepreneurs in the pastoral drylands The contributors also demonstrate how and why large scale investments have advanced in a more piecemeal way as the challenges of implementation have mounted *Assessment of the Implementation of the System of Devolved Government* ,2014 **Name of County** Kenya.
