Arthur A. Thompson, Jr., A. J. Strickland, John E. Gamble, 2006-06 Thompson Strickland and Gamble's CRAFTING AND EXECUTING STRATEGY 15e presents the latest research findings from the literature and cutting edge strategic practices of companies that have been incorporated to keep step with both theory and practice. Scores of new examples have been added to complement the new and updated Illustration Capsules. More chapter end exercises have been included. The result is a text treatment with more punch, greater clarity, and improved classroom effectiveness. But none of the changes have altered the fundamental character that has driven the text's success over the years. The chapter content continues to be solidly mainstream and balanced, mirroring both the best academic thinking and the pragmatism of real world strategic management. This paperback version of the text does not contain any cases but it does include 21 readings from noted business writers that support the concepts in the main text portion. Instructors who would like to create their own case packets to go with this book should go to www.mhhe.com/primis to make their selections.
