Emotional First Aid Guy Winch, 2013 Most of us have no idea how to treat day to day emotional injuries such as failure rejection and loss But as Guy Winch points out these kinds of injuries often get worse when left untreated and can significantly impact our quality of life In this fascinating and highly practical book Dr Winch offers concrete easy to use exercises backed up by hard cutting edge science to aid in recovery He uses relatable anecdotes about real patients and often gives us a much needed dose of humour *Ultra-Brief Cognitive Behavioral Interventions* Len Sperry, Vassilia Binensztok, 2019-04-30 Ultra Brief Cognitive Behavioral Interventions showcases a new practice model to address both physical and psychological health issues in mental health and integrated care settings utilizing focused interventions in brief treatment formats This unique text offers a toolkit of effective interventions and methods including cognitive behavioral therapy CBT methods that can be used in a very brief time frame of 10 20 minutes that can be quickly and efficiently applied to ameliorate specific symptoms The 20 most common interventions in short term therapy practiced in mental health and integrated care settings are illustrated in session transcriptions of the full course of focused therapy with common presentations such as depression anxiety and acute distress pain sleep problems and weight problems This book prepares emerging and experienced counselors and therapists to provide short term therapy for their clients and equips them with the necessary skills to meet the challenges facing mental health care today and in the future [The Addiction Recovery Handbook](#) Richard W. Clark, 2020-09-28 What Richard Clark presents in *The Addiction Recovery Handbook* Understanding Addiction and Culture is long overdue Since 1939 Bill Wilson's important and influential books *Alcoholics Anonymous* and *AA's Twelve Steps and Twelve Traditions* have helped millions of people struggling with addiction to recover In more than 80 years since then a lot has changed the definition of addiction its demographics social attitudes to addiction politics religious influence treatment modalities and the epidemiology of the illness These have taken tolls on our modern network of relationships and treatment that culture and community now depend upon *The Addiction Recovery Handbook* examines the changing historical views of addiction outlines how this culture developed its contemporary perceptions and values and how society contributes to this growing problem Richard Clark proposes AA's traditional religious model of God's help and forgiveness can no longer address the needs of a diverse and largely irreligious society where atheism is becoming mainstream His updated analysis of the traditional AA approach proposes that self understanding and awareness through knowledge and education psychology and compassion be the significant components of any recovery framework This will guide both caregivers and addicts to develop expertise regarding more successful treatment and recovery protocols This would be in a supportive environment of self knowledge and mutual respect whether theist or atheist All concerned will
