Billboard ,2007-06-09 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends *Indigenous African Popular Music, Volume 2* Abiodun Salawu,Israel A. Fadipe,2022-06-14 This volume examines how African indigenous popular music is deployed in democracy politics and for social crusades by African artists Exploring the role of indigenous African popular music in environmental health communication and gender empowerment it subsequently focuses on how the music portrays the African future its use by African youths and how it is affected by advanced broadcast technologies and the digital media Indigenous African popular music has long been under appreciated in communication scholarship However understanding the nature and philosophies of indigenous African popular music reveals an untapped diversity which can only be unraveled by the knowledge of myriad cultural backgrounds from which its genres originate With a particular focus on scholarship from Nigeria Zimbabwe and South Africa this volume explores how during the colonial period and post independence dispensation indigenous African music genres and their artists were mainstreamed in order to tackle emerging issues to sensitise Africans about the affairs of their respective nations and to warn African leaders who have failed and are failing African citizenry about the plight of the people At the same time indigenous African popular music genres have served as a beacon to the teeming African youths to express their dreams frustrations about their environments and to represent themselves This volume explores how through the advent of new media technologies indigenous African popular musicians have been working relentlessly for indigenous production becoming champions of good governance marginalised population and repositories of indigenous cultural traditions and cosmologies **Beyond Memory** Max Mojapelo,2008 South Africa possesses one of the richest popular music traditions in the world from marabi to mbaqanga from boeremusiek to bubblegum from kwela to kwaito Yet the risk that future generations of South Africans will not know their musical roots is very real Of all the recordings made here since the 1930s thousands have been lost for ever for the powers that be never deemed them worthy of preservation And if one peruses the books that exist on South African popular music one still finds that their authors have on occasion jumped to conclusions that were not as foregone as they had assumed Yet the fault lies not with them rather in the fact that there has been precious little documentation in South Africa of who played what or who recorded what with whom and when This is true of all music making in this country though it is most striking in the musics of the black communities *Beyond Memory Recording the History Moments and Memories of South African Music* is an invaluable publication because it offers a first hand account of the South African music scene of the past decades from the pen of a man Max Thamagana Mojapelo who was situated in the very thick of things thanks to his job as a deejay at the South African Broadcasting Corporation This book astonishing for the breadth of its coverage is based on his diaries on interviews he

conducted and on numerous other sources and we find in it not only the well known names of recent South African music but a countless host of others whose contribution must be recorded if we and future generations are to gain an accurate picture of South African music history of the late 20th and early 21st centuries

African-Language Literatures Innocentia Jabulisile Mhlambi, 2012-06-01 African language writing is in crisis The conditions under which African writing developed in the past only remotely similar to those of Western models resulted in an inability of Eurocentric literary models to explore the hermeneutic world of African language poetics inherited from the oral and the modern worlds Existing modes of criticism in the study of this literary tradition are often unsuited for a nuanced understanding of the intrinsic and extrinsic aspects at play in the composition production and reading of these literatures In African Language Literatures Innocentia Jabulisile Mhlambi charts new directions in the study of African language literatures generally and isiZulu fiction in particular by proposing that African popular arts and culture models be considered as a logical solution to current debates and challenges Mhlambi shows how the popular arts and culture approach brings into relationship the oral and written forms the local and the international and elitist and popular genres and locates and places the resultant emerging eclectic culture into its socio historical context She uses this theoretical approach to explore in a wide range of cultural products what matters or what is of interest to the people irrespective of social hierarchies and predispositions It is her contention that in profound ways the African language literary tradition evinces diversity complexity and fluidity and that this should be seen as an invitation to look at systems of meaning which do not hide their connections with the facts of power and material life
