British railway enthusiasm Ian Carter, 2017-10-03 Now available in paperback this is the first academic book to study railway enthusiasts in Britain Far from a trivial topic the post war train spotting craze swept most boys and some girls into a passion for railways and for many ignited a lifetime s interest British railway enthusiasm traces this post war cohort and those which followed as they invigorated different sectors in the world of railway enthusiasm train spotting railway modelling collecting railway relics and then in response to the demise of main line steam traction Britain s now huge preserved railway industry Today this industry finds itself riven by tensions between preserving a loved past which ever fewer people can remember and earning money from tourist visitors The widespread and enduring significance of railway enthusiasm will ensure that this groundbreaking text remains a key work in transport studies and will appeal to enthusiasts as much as to students and scholars of transport and cultural history

How to Build a Model Railway David Ashwood, Market Deeping, 2022-11-08

Moving from a train set out of a box to making your own model railway can seem a daunting proposition Whether you go your own way wish to follow a prototype tightly or have an inherited stock that you want to make the best of This book covers the act of deciding on a design that will keep the interest alive Executing it in a manner that is within your skills set and finishing it to a quality you are satisfied by within a time and financial limit Here learning from those who have had both successes and the occasional false start will assist you in execution of your project and maintaining its interest The book aims to explain jargon and includes such subjects as project design and planning alternative baseboard construction methods track laying basic electrics accompanied by a rich and varied imagery The Market Deeping Model railway club rose to public notice in May 2019 following the sad overnight vandalism of their annual railway show The breaking news story became a worldwide cause c l bre bringing a whirlwind of kind support from modelers and the general public The rebuilding of the club s damaged layouts and new projects for replacements gave the rare opportunity of experienced modelers to photograph and document the build process and revisit the basics The results are incorporated into this book making a positive and cathartic activity from a distinctly negative situation
