It found that the average survival time of patients given drugs was the highest. What do you conclude?

- a) This study proves that drugs prolong life and should be the treatment of choice.
- b) We can conclude that drugs prolong life because the study was a comparative experiment.

3. Ruby wanted to estimate the average amount of time that students at her school spend on Facebook each day. She gets an alphabetical roster of students in the school from the registrar's office and numbers the students from 1 to 1137.
