**Early Childhood Education in the 21st Century** Hani Yulindrasari, Vina Adriany, Yeni Rahmawati, Fonny Hutagalung, Sarita Gálvez, Ade Gafar Abdullah, 2019-09-24  
Providing a selection of papers presented at ICECE 2018 a biennial conference organised by the Early Childhood Education Program Universitas Pendidikan Indonesia. The conference's general theme was Finding Alternative Approaches, Theories, Frameworks and Practices of Early Childhood Education in the 21st Century. Distinct from other periods of time the 21st century is characterised by so much knowledge easy to access but hard to grasp, borderless and hyper connected society mediated by the internet, high competitiveness not only within a country but across countries, high mobility and widening economic discrepancy as neoliberalism has strengthened its influence on every sector of human life. The children of today will face many things that have not yet been invented or discovered, sometimes beyond expectations. Scholars and teachers of early childhood education need to be aware of these astonishing changes. The way children and childhood are seen cannot stay the same and so does the way children of this century are educated. The conference opened a discussion about finding alternative approaches, theories and best practices of early childhood education for a rapidly changing and globalised society.
