Handbook of Research on Decision-Making Techniques in Financial Marketing Dinçer, Hasan, Yüksel, Serhat, 2019-12-27
Consumer needs and demands are constantly changing. Because of this, marketing science and finance have their own concepts and theoretical backgrounds for evaluating consumer-related challenges. However, examining the function of finance with a marketing discipline can help to better understand internal management processes and compete in today's market. The *Handbook of Research on Decision Making Techniques in Financial Marketing* is a collection of innovative research that integrates financial and marketing functions to make better sense of the workplace environment and business-related challenges. Different financial challenges are taken into consideration while many of them are based on marketing theories such as agency theory, product life cycle, and optimal consumer experience. While highlighting topics including behavioral financing, corporate ethics, and Islamic banking, this book is ideally designed for financiers, marketers, financial analysts, marketing strategists, researchers, policymakers, government officials, academicians, students, and industry professionals.

Analysing the Organisational Environment, The aim of this title is to examine the nature of organisational culture and structure and their influence on the ability of the organisation to cope to this rapidly changing environment. **Theory and Practice of Leadership** Roger Gill, 2011-12-15. Praise for the first edition: At last, a well-written, balanced, and insightful British book on leadership. It is probable that every theory and assertion of consequence is commented upon. A real tour de force. Emeritus Professor Gerry Randell, University of Bradford School of Management. *Theory and Practice of Leadership* is an all-encompassing global review of examples and case studies that is both comprehensive and easily adaptable to almost any situation one would encounter in leading people. Richard J. Conwell, Nova Southeastern University. *Journal of Applied Management and Entrepreneurship*. If you are looking for a more holistic and critical take on the field of leadership, look no further. The second edition of this engaging and highly respected text offers an exploration of leadership in a variety of contexts, both profit-oriented and non-profit. New to this edition: Refined to capture and delineate the essential theories more clearly with broader coverage, taking in the latest developments in areas such as change, politics, assessment, and development of leadership and multiple intelligences. Further development of a new integrative model of core leadership themes and practices. Abundant examples and illustrations together with detailed explanations of how they apply in practice. A companion website with an Instructor's Manual, PowerPoint slides, links to additional case studies, and full-text journal articles. *Theory and Practice of Leadership* will prove a highly stimulating read for undergraduate and postgraduate students of leadership and related subjects, as well as management consultants and practising managers. *Rethinking Decision-Making Strategies and Tools* Maria Palazzo, Alessandra Micozzi, 2024-02-16. Readers will be enabled to compare, contrast, and comprehend how the decision-making strategies and tools from different lenses are delivered in different parts of the world. The text includes an interesting mix of theory, primary research findings, and practice that will appeal to students.

Development of a Business Model Approach* Fabian Hoefft, 2019-10-24 Master s Thesis from the year 2019 in the subject
Business economics Business Management Corporate Governance grade 1 3 Niederrhein University of Applied Sciences
Krefeld School of Business and Economics language English abstract Today s world of mobility is characterised by a high
degree of dynamism and change is becoming apparent Currently around 45 million passenger cars with conventional
combustion engines powered by diesel or petrol are registered in Germany The share of electric vehicles is still well below
one per cent Nevertheless the voices for sustainable and environmentally friendly transport are becoming louder One
political measure in this respect is the implementation of driving bans in major German cities for some conventional
combustion cars Car electrification is a solution for converting cars with conventional combustion engines to electric drives
In the context of this thesis car electrification is regarded as a transition solution towards a nationwide electrified transport
network of new electric cars A comprehensive concept of a business model approach from a start up perspective has been
developed based on the analysis of the environment industry and customer needs Analysing the structure of the electrical
conversion industry revealed that the subject of car electrification is hardly widespread and that current suppliers have only
converted a smaller number of cars Besides the small scale of implementation the operational execution by existing suppliers
can be considered weak in terms of competitiveness and sustainability The analysis of the needs of potential customers of car
electrification using qualitative and quantitative methods has led to incredibly valuable insights for the development of the
business model approach A high openness to purchase was expressed considering some of the factors mentioned such as a

test drive with an electrified car before purchase and a durability guarantee of the conversion The high relevance of initial acquisition costs compared to operating expenses in the purchase decision for passenger cars is another precious insight The business model approach developed based on the findings obtained differs fundamentally from the strategies of today's providers By incorporating the existing infrastructure of workshops and service points proximity to the end customer and scalability of the business operation can be achieved Partnering with universities and industry are two critical elements in the development of a sustainable secure and user friendly technical solution *Applying appropriate models, tools and techniques for an effective marketing plan* George Yiapanas,2019-11-26 Submitted Assignment from the year 2016 in the subject Business economics Business Management Corporate Governance grade 76 University of Wolverhampton course MA in Management language English abstract The Marketing environment is segregated into three components the internal environment micro environment the external environment macro environment and the market environment Strydom 2004 To realise the company's position all three components need to be assessed and evaluated **Balanced Scorecards and Operational Dashboards with Microsoft Excel** Ron Person,2013-01-14 Learn to maintain and update scorecards and dashboards with Excel Balanced Scorecards and operational dashboards measure organizational performance and Microsoft Excel is the tool used worldwide to create these scorecards and dashboards This book covers time proven step by step processes on how to guide executive teams and managers in creating scorecards and dashboards It then shows Excel developers how to create those scorecards and dashboards This is the only book that converts theory into practice The author addresses the people and processes you need to identify strategy and operational metrics and then implement them in dashboards in three versions of Excel You'll learn how balanced scorecards help organizations translate strategy into action and the ways that performance dashboards enable managers monitor operations Covers Excel 2010 back to Excel 2003 Shows how to develop consensus on strategy and operational plans with the executive teams Details steps in creating tactical action plans Gives step by step guidance in creating the most powerful management dashboards Puts over ten years of experience in one book **Balanced Scorecards Operational Dashboards with Microsoft Excel Second Edition** is the ultimate resource for enhancing your strategic and operational performance **International Business** Shad Morris,James Oldroyd,2018-07-04 International Business provides a learning format that enables instructors to give their students an engaging and active learning experience The course integrates a streamlined content approach with dynamic content that includes current cutting edge topics and high interest examples that are relevant to the business world **Proceedings of the 3rd International Conference on Sustainable Development Indicators in the Minerals Industry (SDIMI 2007)** Zacharias Agioutantis,2007 **Strategic Options of Non-profit and For-profit Organisations in the German General Aviation Industry** Jürgen Krieg,2013-02-05 Master's Thesis from the year 2011 in the subject Business economics Business Management Corporate Governance grade C Henley Business School University of Reading course Strategie Marketing

language English abstract The focus of this thesis is on the mixed industry namely the German general aviation industry especially on its NPOs Clubs and what drives their strategic approaches The research question was to investigate potential strategic growth options for NPOs in the German general aviation industry the factors that influence the selection of a specific growth strategy and the higher success rate among the growth strategies This thesis derived the three objectives a The favour of NPOs for a certain strategy strategic direction b the impact of specific growth strategies on NPO performance and c the impact of macro and micro environmental and internal factors on the NPOs chosen growth strategy The content regarded both macro and micro environmental factors and how they are perceived by the NPOs for the German general aviation industry the growth strategies and generic strategies they follow as well as the market performance they achieve
