sciences and the humanities and a valuable resource for general readers with interest in the subject **Democracy in the Disinformation Age** Regina Luttrell, Lu Xiao, Jon Glass, 2021-05-23 In this book established researchers draw on a range of theoretical and empirical perspectives to examine social media's impact on American politics. Chapters critically examine activism in the digital age, fake news, online influence, messaging tactics, news transparency, and authentication. Consumers' digital habits and ultimately the societal impacts that continue to be created by combining social media and politics. Through this book, readers will better understand and approach with questions such as: How exactly and why did social media become a powerful factor in politics? What responsibilities do social networks have in the proliferation of factually wrong and hate-filled messages? Or should individuals be held accountable? What are the state-of-the-art of computational techniques for measuring and determining social media's impact on society? What role does online activism play in today's political arena? What does the potent combination of social media and politics truly mean for the future of democracy? The insights and debates found herein provide a stronger understanding of the core issues and steer us toward improved curriculum and research aimed at a better democracy. **Democracy in the Disinformation Age: Influence and Activism in American Politics** will appeal to both undergraduate and postgraduate students as well as academics with an interest in areas including political science, media studies, mass communication, PR, and journalism. **Managing With Power** Jeffrey Pfeffer, 1993-11-12

Although much has been written about how to make better decisions, a decision by itself changes nothing. The big problem facing managers and their organizations today is one of implementation: how to get things done in a timely and effective way. Problems of implementation are really issues of how to influence behavior, change the course of events, overcome resistance, and get people to do things they would not otherwise do. In a word, power. **Managing With Power** provides an in-depth look at the role of power and influence in organizations. Pfeffer shows convincingly that its effective use is an essential component of strong leadership. With vivid examples, he makes a compelling case for the necessity of power in mobilizing the political support and resources to get things done in any organization. He provides an intriguing look at the personal attributes such as flexibility, stamina, and a high tolerance for conflict, and the structural factors such as control of resources, access to information, and formal authority that can help managers advance organizational goals and achieve individual success.

Psychology Don H. Hockenbury, Sandra E. Hockenbury, 2008-12-19 More than any other psychology textbook, Don and Sandra Hockenbury's **Psychology** relates the science of psychology to the lives of the wide range of students taking the introductory course. Now **Psychology** returns in a remarkable new edition that shows just how well attuned the Hockenburys are to the needs of today's students and instructors. **Psychology** began with a basic idea: combine scientific authority with a narrative that engages students and relates to their lives. From decades of experience teaching the Hockenburys created a book filled with cutting-edge science and real-life stories that draw students of all kinds into the course. Negotiation Max H. Bazerman, 2025-01-14 From the world's leading expert on negotiation, an essential guide to negotiating in any situation.
