

MY MATHS DICTIONARY

Angles are formed by two lines of different sizes that meet at a point.

- Acute: The type of angle that is less than 90°.
- Right angle: The angle that is exactly 90°.
- Obtuse: An angle that is more than 90° but less than 180°.
- Reflex: An angle larger than 180°.

Area: the amount of space covered by a shape, measured in squared units.

Average: the mean of a set of numbers.

Calculate: to work out the answer to a problem.

Capacity: this is the amount of space that a container can hold. Capacity can be measured in litres, which is written as 'l'.

Century: this means 100 years.

Divide: to split something into equal parts.

Degree: a unit of measurement for angles.

Difference: a word used to describe the difference between two numbers.

Equilateral: a triangle with three equal sides and three equal angles that are each 60°.

Factors: a number that divides another number exactly.

Inverse operation: an operation that reverses the effect of another operation. For example, addition is the inverse of subtraction.

Mean: The mean is a type of average. To find the mean, you need to add up all your results and then divide the total by the number of results.

Example: Here are a set of results of an exam: 50, 60 and 40.
 $50 + 60 + 40 = 150$ or then $150 \div 3 = 50$
The mean result is 50.

Median: when data is arranged in size order, the middle result is the median.

Mode: the most common result in data collected.

Multiple: a larger number that can be divided by smaller numbers added together. Example: 100 is a multiple of 10.

Percentages: this is written as % and it means 'out of 100'. 60% means the same as 60/100. To find 60% of 200, you divide 200 by 100 and then multiply by 60.

Prime numbers: this is a type of number that will divide itself and the number 1 only.

Prime numbers to 50 are: 2, 3, 5, 7, 11, 13, 17, 19, 23, 29, 31, 37, 41, 43, 47.

Unit cube: A cube that is 1 unit long and 1 unit wide and 1 unit high.

Volume: The amount of space that a 3D object takes up.

Venn diagram: a diagram used to show the relationship between two sets of things. The sets are represented by overlapping circles.

Whole number: A number that is not a fraction or a decimal.

X-axis: The horizontal axis on a graph.

Y-axis: The vertical axis on a graph.

Maths Dictionary A To Z Introduction

In today's digital age, the availability of Maths Dictionary A To Z books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Maths Dictionary A To Z books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Maths Dictionary A To Z books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Maths Dictionary A To Z versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Maths Dictionary A To Z books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Maths Dictionary A To Z books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Maths Dictionary A To Z books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both

public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Maths Dictionary A To Z books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Maths Dictionary A To Z books and manuals for download and embark on your journey of knowledge?

FAQs About Maths Dictionary A To Z Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Maths Dictionary A To Z is one of the best book in our library for free trial. We provide copy of Maths Dictionary A To Z in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Maths Dictionary A To Z. Where to download Maths Dictionary A To Z online for free? Are you looking for Maths Dictionary A To Z PDF? This is definitely going to save you time and cash in something you should think about.
