M. Verhaar, 1967 The present volume is the fifth of a series of studies analysing the verb to be and or synonyms in a number of languages It is expected that these studies will provide some of the necessary foundational material for research in logic the theory of knowledge and ontology and possibly in other philosophical disciplines The concluding volume of the series will attempt to assess the linguistic and philosophical impact of all the contributions Except for the concluding volume the present volume is the last in the series which collects contributions by more than one author I have availed myself of this opportunity to reprint here with the authors permission two papers on to be which appeared earlier in Foundations of Language Being and Having in Estonian by Ilse Lehiste and Being in Linguistics and Philosophy a Preliminary Inquiry by A C Graham These two papers appear at the end of the volume all other papers appear in the order in which they reached the editor s desk Two more volumes are to precede the concluding volume a study of to be in Ancient Greek by Charles H Kahn and a study on to be in biblical Hebrew and biblical Greek by James Barr

Complexity of Languages Spoken in Europe and North and Central Asia Pirkko Suihkonen, Lindsay J. Whaley, 2014-12-15 The languages of Europe and North and Central Asia provide a rich variety of data In this volume some articles are summaries of large areal typological research projects and some articles focus on structures or constructions in a single language However it is common to all the articles that they investigate phenomena that have not been examined previously or they apply a new framework to a topic The volume will be of interest to scholars with a focus on this broad geographic region typologists historical linguists and discourse analysts The uniqueness of this volume is that it brings together work on a genetically diverse set of languages that have some shared areal traits **Pandemics and Literature**

Kamlesh Mohan, Saurav Kumar Rai, 2024-11-15 This volume provides a literary cum historiographical analysis of epidemics and pandemics. It looks at folklore, tribal folktales, eyewitness accounts, memoirs, and missionary writings from India and the west to explore the history of some of the major outbreaks in history. The chapters focus on the impact of outbreaks such as plague, cholera, malaria, tuberculosis, and COVID-19 upon the material life of people, their social dislocation, and their complex responses to such crises. The book studies the role of pandemics in pushing scientists, social actors, and litterateurs to develop new paradigms in knowledge generation, theories of environmental dislocation, and the economic slide. It examines themes such as changes in the perception of epidemic diseases across different periods of history, popular responses to state intervention during epidemics, gendering epidemics, as well as the impact of rumours during epidemics. An important contribution to the social history of health and medicine, the volume will be useful for students and researchers of cultural studies and medical anthropology, public health literature, history of pandemics and epidemics, sociology of medicine, and South Asian studies.

Partition, nation making, frontiers, refugees, minority formation, and categories of citizenship have been my preoccupations, she writes in the preface, and these are also the major themes of this book. Chatterji's first book, *Bengal Divided*, shifted the focus from Muslim fanaticism as the driving force of Partition towards secular nationalism and Hindu aggression. Her *Spoils of Partition* rejected the idea of Partition as a breaking apart, showing it to be a process in the remaking of society and state. Her third book, *Bengal Diaspora*, co-written with Claire Alexander and Annu Jalais, challenged the idea of migration and resettlement as exceptional situations. *Partition's Legacies* can be seen as continuous with Chatterji's earlier work, as well as a distillation and expansion of it. Chatterji is known for the elegance of her prose, as much as for the sharpness of her insights into Indian history. *Partition's Legacies* will enthrall everyone interested in modern India's apocalyptic past. What emerges from the essays, David Washbrook writes in the introduction, is often quite startling. The demarcation of Partition followed no master plan or even coherent strategy but was made up of myriad ad hoc decisions taken on the ground, often by obscure actors. Refugee policy, immigrant rights, and even definitions of national citizenship were produced by no *deus ex machina* but out of day-to-day struggles on the streets and in the courts. **English and Urdu Dictionary, Romanized** Henry Blochmann, 1877 **Proceedings of the Meetings** Indian Historical Records Commission, 1975 **Proceedings of the Session** Indian Historical Records Commission, 1975 *Moody's Manual of Investments* John Sherman Porter, 1922 American government securities 1928-53 in 5 annual vols v 1 Railroad securities
