English Exposed Steve Hart, 2017-03-01 Having analysed the most common English errors made in over 600 academic papers written by Chinese undergraduates postgraduates and researchers Steve

Hart has written an essential practical guide specifically for the native Chinese speaker on how to write good academic English. *English Exposed: Common Mistakes Made by Chinese Speakers* is divided into three main sections. The first section examines errors made with verbs, nouns, prepositions and other grammatical classes of words. The second section focuses on problems of word choice. In addition to helping the reader find the right word, it provides instruction for selecting the right style too. The third section covers a variety of other areas essential for the academic writer, such as using punctuation, adding appropriate references, referring to tables and figures, and selecting among various English date and time phrases. Using *English Exposed* will allow a writer to produce material where content and ideas, not language mistakes, speak the loudest.

Exploratory Data Analysis in Business and Economics Thomas Cleff, 2013-11-12. In a world in which we are constantly surrounded by data, figures, and statistics, it is imperative to understand and to be able to use quantitative methods. Statistical models and methods are among the most important tools in economic analysis, decision making, and business planning. This textbook, *Exploratory Data Analysis in Business and Economics*, aims to familiarise students of economics and business, as well as practitioners in firms, with the basic principles, techniques, and applications of descriptive statistics and data analysis. Drawing on practical examples from business settings, it demonstrates the basic descriptive methods of univariate and bivariate analysis. The textbook covers a range of subject matter, from data collection and scaling to the presentation and univariate analysis of quantitative data, and also includes analytic procedures for assessing bivariate relationships. It does not confine itself to presenting descriptive statistics but also addresses the use of computer programmes such as Excel, SPSS, and STATA, thus treating all of the topics typically covered in a university course on descriptive statistics. The German edition of this textbook is one of the bestsellers on the German market for literature in statistics.

Litigation Services Handbook Roman L. Weil, Daniel G. Lentz, Elizabeth A. Evans, 2017-04-05. The comprehensive bible for financial experts providing litigation support. The *Litigation Services Handbook* is the definitive guide for financial experts engaged in litigation services. Attorneys require financial experts now more than ever, and this book provides the guidance you need to provide a high level of service as witness and consultant. Enhance your litigation skills as you delve into the fine points of trial preparation, deposition, and testimony; project authority under examination, and hold up to tough questions under cross-examination. Fraud investigations are a major component of litigation support services, and this book delves deep into Sarbanes-Oxley compliance and other relevant topics to give you a foundational understanding of how these cases are prosecuted and your role as the financial services expert. This updated sixth edition includes new coverage of technology's role in the financial expert's practice, and the focus on investigations provides practical insight from leading experts in the field. From the process itself to proving damages, this indispensable reference covers all aspects of litigation services. Providing litigation support requires more than just your financial expertise; you also need a working knowledge of relevant case law and a deep understanding of both the litigation process and the finer points of courtroom appearances. This book

provides the insight and perspective you need to provide superior service to attorneys and their clients Understand your role in trial preparation and testimony presentation Provide authoritative responses to direct and cross examination Examine and analyze Sarbanes Oxley rulings Lend financial expertise to fraud investigations The growing demand for financial expert litigation services has created a niche market for CPAs creating a lucrative opportunity for qualified accountants who also possess the specialized knowledge the role requires The Litigation Services Handbook is THE essential guide for anyone involved in financial litigation
