ISO 45001:2018 OCCUPATIONAL HEALTH and SAFETY MANAGEMENT SYSTEM Kranti DHARKAR, Ramesh LAKHE, 2018-07-08. ISO 45001:2018 Occupational Health and Safety Management System is the first OH S standard by ISO. It focuses on improving safety and reducing ill health. It replaces the prevalent OHSAS 18001 standard. ISO 45001 is well drafted, covering all the requirements as per the HSL structure of the ISO and is based on the PDCA cycle and Process approach. This book covers all the requirements of the ISO 45001 standard. It begins with the Introduction in which the salient features of the ISO 45001 standard are given along with the differences from the OHSAS 18001. It further explains each clause requirement through the explanations, diagrams, PDCA cycle, Process approach, and illustrated examples. Each and every sub-clause is explained and diagrammatic representations are provided. The book has more than 25 diagrams, 15 tables, and numerous examples to understand the ISO 45001 standard. The book also includes the audit questions on each clause and provides the implementation plan. The organisations who are interested in implementing ISO 45001:2018 OH S management system or interested in transition from OHSAS 18001 would find this book extremely useful. The professional consultants, auditors, students, or any one who is interested in getting in-depth knowledge about the ISO 45001 would find this book useful not only for understanding but also for the interpretation for implementation. The book is written by professionals who have been providing training and consultancy related to the Occupational Health and Safety Management System for last 20 years.

A New ISO Standard for Occupational Health and Safety Management Systems Hugh Robertson, 2016. This policy brief looks at the new ISO 45001 draft international standard for occupational safety and health (OSH) management systems. After describing the process for international standard setting, the brief analyses the relationship of this new proposed ISO 45001 with the European Union's 1989 framework directive on health and safety. It identifies several concerns over the structure and approach as well as the potential effect of the standard on SMEs. It concludes that the current draft could lead to reduced levels of protection and greater bureaucracy and burdens as contractors, employers, and regulators focus on certification of a standard rather than on the real indicators of a strong safety system: effective risk management, good outcomes, and full consultation and involvement with union. Finally, it ends with four concrete policy recommendations for trade unions and policymakers.
