Handbook of US Consumer Economics Andrew Haughwout, Benjamin Mandel, 2019-08-13 Handbook of U S Consumer Economics presents a deep understanding on key current topics and a primer on the landscape of contemporary research on the U S consumer This volume reveals new insights into household decision making on consumption and saving borrowing and investing portfolio allocation demand of professional advice and retirement choices Nearly 70% of U S gross domestic product is devoted to consumption making an understanding of the consumer a first order issue in macroeconomics After all understanding how households played an important role in the boom and bust cycle that led to the financial crisis and recent great recession is a key metric

Classification and Data Analysis Krzysztof Jajuga, Jacek Batóg, Marek Walesiak, 2020-08-28 This volume gathers peer reviewed contributions on data analysis classification and related areas presented at the 28th Conference of the Section on Classification and Data Analysis of the Polish Statistical Association SKAD 2019 held in Szczecin Poland on September 18 20 2019 Providing a balance between theoretical and methodological contributions and empirical papers it covers a broad variety of topics ranging from multivariate data analysis classification and regression symbolic and other data analysis visualization data mining and computer methods to composite measures and numerous applications of data analysis methods in economics finance and other social sciences The book is intended for a wide audience including researchers at universities and research institutions graduate and doctoral students practitioners data scientists and employees in public statistical institutions

Remaking Retirement Olivia Mitchell, Annamaria Lusardi, 2020-10-24 Around the world people nearing and entering retirement are holding ever greater levels of debt than in the past This is not a benign situation as many pre retirees and retirees are stressed about their indebtedness Moreover this growth in debt among the older population may render retirees vulnerable to financial shocks medical care bills and changes in interest rates Contributors to this volume explore key aspects of the rise in debt across older cohorts drill down into the types of debt and reasons for debt incurred by the older population and review policies to remedy some of the financial problems facing older persons in the US and elsewhere The authors explore which groups are most affected by debt and identify the factors producing this important increase in leverage at older ages It is clear that the economic and market environment is influential when it comes to saving and debt Access to easy borrowing low interest rates and the rising cost of education have had significant impacts on how much people borrow and how much debt they carry at older ages In this environment the capacity to manage debt is ever more important as older workers lack the opportunity to recover from mistakes

Modern Classification and Data Analysis Krzysztof Jajuga, Grażyna Dehnel, Marek Walesiak, 2022-10-16 This volume presents a selection of peer reviewed papers that address the latest developments in the methodology and applications of data analysis and classification tools to micro and macroeconomic problems The contributions were originally presented at the 30th Conference of the Section on Classification and Data Analysis of the Polish Statistical Association SKAD

2021 held online in Pozna Poland September 8 10 2021 Providing a balance between methodological and empirical studies and covering a wide range of topics the book is divided into five parts focusing on methods and applications in finance economics social issues and to COVID 19 data The book is aimed at a wide audience including researchers at universities and research institutions PhD students as well as practitioners data scientists and employees in public statistical institutions

Thomas Fleishel, 2024-04-12 What the book is about We believe when successful families business owners and corporate executives live their life by design they have the clarity confidence and time to focus on what really matters in life We also believe it's totally possible to live your life by design and really be intentional about that What we mean by living life by design and focusing on what really matters in life is intentionally designing the things in life you cannot delegate like time with your family career hobbies spiritual life or your health We frequently run into successful business owners corporate executives and even pre retirees who are often worried they're not being as intentional about their finances as they could be They're making good money but their house is not in order or they assume it is since they don't know what they don't know They may be frustrated and know they should be further along at their current stage of life financially but are not sure how to break through to more clarity and confidence in this area of their lives They often encounter what we call a ceiling of complexity that ties up their time and keeps them from living life by design and allowing them to focus on what matters most in life Complexity can be caused by several things like making more money complicating your taxes or by having multiple or

previous advisors that sold you insurance or investments that you re not sure how they fit into your current plan Or more commonly it can come from having several siloed issues like investments taxes insurance that are not coordinated together properly If you make a decision in one area do you know how it will impact these others We absolutely believe in being really really intentional with your planning and it s my hope that the ideas contained in this book will help you remove the complexity so you can live your life by design Who should read the book It doesn t matter where you are in life it s never too late to get serious about making smart or even smarter choices with your money You may be a thirty something corporate executive just finding your groove in the corporate world and now beginning to make enough income to get moving on your planning But you re not sure how to get started or who to trust You may be a small business owner in your mid fifties and your company is crushing it with consistently growing profits and cash flow but you ve hit that ceiling of complexity and your company is running you vs you running your company You re not sure how to keep the work life balance and coordinate your business and personal finances How do I take control again and manage it so I m in control and have the freedom to focus on what really matters in my life You could be a single female having recently experienced a painful divorce or spouse s passing and you re in a state of shock and uncertainty with so many aspects of your life but the biggest worry is your finances Your spouse may have handled all the money matters and now you re on your own trying to figure it all out Where do I begin who can I trust to help You could also be a well intentioned do it yourselfer where you initially thought you had the time and temperament to juggle all the pieces of your financial world on your own You ve tried all the online resources and self help sites but once reality set in you ve come to the realization that finding the right fit financial team may not be such bad idea after all But you re not sure about how to find a competent trustworthy person team that puts your interests first
