Nucleic Acid Structure An Introduction Heidelberg Science Library:

Nucleic Acid Structure W. Guschlbauer, 2012-12-06 Teaching a course on nucleic acid structure is a hazardous undertaking especially if one has no continuous teaching obligations I still have done it on several occasions in various French universities when colleagues suffering from administrative overwork and excessive teaching obligations had asked me to do so This was generally done with a pile of notes and a dozen slides and I always regretted that no small concise specialized book on nucleic acid structure for students at the senior or beginning graduate level existed Every year the lecture notes became more and more voluminous with some key reprints intermingled Everything changed when in the spring of 1973 I received an invitation to teach such a course under the UNESCO OAS Molecular Biology Program at the Universidad de Chile in Santiago during October 1973 I had accepted rather enthusiastically but soon discovered that it would be necessary to produce a photocopied syllabus for the students This was the first premanuscript of this book For nonscientific reasons the course was first canceled and then postponed until December 1973 Nearly a year later the course in slightly amended form was presented at the Lomonosov State University in Moscow
