Get Started with the Acme Developer Platform

Acme's developer platform provides many API products, tools, and resources that enable you to harness the power of Acme's open, global, and real-time communication network.

This page describes what's possible to build with the different tools and APIs that are available on the platform, and how to get the access and information that you need to get started.

We regularly update and improve the experience and products available on the developer platform. These improvements make it important for you to *stay informed* so you don't miss any updates.

Which tools and APIs are available?

The Acme developer tools and endpoints are grouped into the following APIs, which you can read more about on our "Products overview" page. You can also visit our "API reference index" page to see a full list of the endpoints available on the platform.

APIs	Description
Standard API	The included endpoints will let you perform the following: <ul style="list-style-type: none">Post, retrieve, and engage with Tweets and timelinesPost and receive direct messagesManage and pull public account informationCreate and manage listsFollow, search and get usersRetrieve trends

How do I get started on the Acme developer platform?
