The Philosopher in Early Modern Europe Conal Condren, Stephen Gaukroger, Ian Hunter, 2006-09-28 In this groundbreaking collection of essays the history of philosophy appears in a fresh light not as reason's progressive discovery of its universal conditions but as a series of unreconciled disputes over the proper way to conduct oneself as a philosopher By shifting focus from the philosopher as proxy for the universal subject of reason to the philosopher as a special persona arising from rival forms of self cultivation philosophy is approached in terms of the social office and intellectual deportment of the philosopher as a personage with a definite moral physiognomy and institutional setting In so doing this collection of essays by leading figures in the fields of both philosophy and the history of ideas provides access to key early modern disputes over what it meant to be a philosopher and to the institutional and larger political and religious contexts in which such disputes took place

El negocio jurídico testamentario, La muerte ha sido un tema recurrente de artistas poetas y filsofos Muchos le han cantado escrito y pensado en ella El Derecho menos poético en este sentido también se ha ocupado de ella por la trascendencia jurídica que tiene Todos morimos unos primeros que otros pero al final la Parca llega La obra que aquí se presenta es una reflexión jurídica del testamento como máxima expresión de la autonomía de la voluntad de la persona y a su vez como negocio jurídico dentro de los tantos que se pueden realizar en el tráfico jurídico Destaca en la monografía las cuestiones de actualidad que se abordan no solamente las clásicas más habituales dentro de los estudios de Derecho de Sucesiones sino también aquellas más novedosas que comienzan a emerger en el debate doctrinal y legislativo En la monografía *El negocio jurídico testamentario* se transita desde el estudio de un testamento más clásico con todas las aristas que ello conlleva a temáticas de interés como la necesidad de un testamento más contemporáneo que se adapte a la sociedad actual la urgencia de la planificación testamentaria así como la digitalización de la muerte y de la herencia con algunas pinceladas en torno al llamado testamento digital presentándose además someramente por la novedad de la cuestión la relación entre el testamento con la Inteligencia Artificial Hablar de sucesiones y del testamento constituye un tema fascinante con la peculiaridad que mientras más se estudia más complejas resultan tanto la disciplina como la institución
