John Little, 2019-04-09 There is something terribly wrong with the state of exercise as we know it presently Sales of treadmills running shoes gym memberships and yoga classes are at an all time high but so too are our national levels of obesity and type II diabetes Ever since the 1960s the exercising public has been told to stretch for flexibility and to perform low intensity steady state aerobic exercise for their cardiovascular systems and some form of resistance training to keep their muscles strong With regard to diet they have been told to restrict or omit macronutrients such as fats and carbohydrates and lots of other advice with regard to calorie counting Could it be that this information however well intended was mistaken And is it really necessary to devote so much time to the pursuit Fitness researcher and pioneer John Little has spent more than

twelve years researching the actual science underpinning our most prevalent beliefs about exercise and has come away from the enterprise convinced that we need an entirely new paradigm one that would involve reliance on briefer workouts He presents this revolutionary new approach in *The Time Saver's Workout* Among the fascinating revelations presented in this book Certain types of exercise can actually make you less healthy and fatter Taking large doses of food supplements might actually shorten your life and put you at greater risk for disease Stretching to become more flexible or to recover quicker from injury has been found to do neither of these things Resistance training once considered to be the weak sister of exercise is now looking like the best form of exercise one should engage in The new protocols that Little exposes offer a far safer alternative for those looking to become stronger fitter and healthier without spending their lives in the gym **Bring It!** Tony Horton,2012-05-08 Creator of the best selling P90X workout series Tony Horton shows you how to Bring It for the results you want Over the past 25 years Tony Horton has helped millions of people from stay at home moms to military personnel to A list celebrities transform their bodies and their lives with innovative workouts and cutting edge advice Now in his first book he shares the fundamentals of his fitness philosophy with millions more revealing his secrets for getting fit and healthy and melting away pounds One size fits all diets and exercise regimens just don't work that's why Tony creates unique programs for each of his clients In *Bring It* he shows you how to build your own diet and fitness plan tailored to your individual lifestyle preferences and goals With a Fitness Quotient FQ quiz designed to assess your likes dislikes and current fitness level you can choose the program that's right for you In photographs and easy to follow instructions Tony demonstrates his unique moves and exercise combinations that include cardio fat burners lower body blitzers core strengthening plyometrics yoga and more You'll also discover Tony's fat blasting eating plan and detox tips delicious recipes and mental motivators Whether you've never been to the gym before are looking to get bikini ready or simply want to take your workout to the next level Tony Horton can give you the results you've been looking for A better body and future is possible when you commit to change Get ready to Bring It **Home Workout** DK,2009-12-21 Forget gyms expensive kit and hours of punishing fitness regimes choose from a range of 15 minute pilates yoga and abs workouts back exercises and strength training programmes and get your body in top shape with *Home Workout* Clear at a glance photos show you exactly what to do and the live action 60 minute DVD demonstrates a choice of workouts to suit your fitness needs and mood A total fitness package exercising at home has never been easier or quicker **ANIMAL KINGDOM WORKOUTS** Rahul Mookerjee,2020-07-04 Benefits you can expect from following the routines and exercises laid out in this book Super strength and CONDITIONING not to mention WEIGHT LOSS in an all in one package No more need for long drawn out workouts Most of these workouts won't take longer than 10 minutes at most if you do things right the workout part of it you may be panting for a long long time during and after the workouts though Hehe A core of STEEL Quite literally If you thought my other exercises gave you a core of steel well you were right especially those in *Corrugated Core* but this book takes CORE training
