Discourse in Old Norse Literature Eric Shane Bryan, 2021 The vast and diverse corpus of Old Norse literature preserves the language spoken not only by the Vikings kings and heroes of medieval Scandinavia but also by outlaws missionaries and farmers Scholars have long recognized that the wealth of verbal exchanges in Old Norse sagas presents the modern reader with the opportunity to speak face to face as it were with these great voices of the past However despite the importance of verbal exchanges in the sagas there has been no book length study of discourse in Old Norse literature since 1935 This book meets the need for such a study by offering a literary analysis based on the adjacent field of pragmatic linguistics which recognizes that speakers often rely upon cultural situational and interpersonal context to communicate their meaning The resulting context dependent meaning often deviates from the base semantic and syntactical components of an utterance speakers hedge imply deflect to save face or obscure meaning to damage an opponent s self

worth Saga writers this book argues were masters of this type of indirectness in speech It aims therefore to unlock the depth and subtlety of discourse in Old Norse literature and to leave readers with an understanding of how principles of pragmatics were employed throughout the sagas A wide body of Old Norse materials is examined including some of the best examples of slendingas gur sagas of Icelanders such as Brennu Nj ls saga Laxdoela saga and G sla saga S rssonar while also giving due attention to Konungas gur kings sagas fornaldars gur legendary sagas and other literature from the medieval North ERIC SHANE BRYAN is Associate Professor of English at Missouri University of Science and Technology Text, Discourse and Corpora Michael Hoey, Michaela Mahlberg, Michael Stubbs, Wolfgang Teubert, 2007-09-28 Corpus linguistics is often regarded as a methodology in its own right but little attention has been given to the theoretical perspectives from which the subject can be approached The present book contributes to filling this gap Bringing together original contributions by internationally renowned authors the chapters include coverage of the lexical priming theory parole linguistics a four part model of language system and language use and the concept of local textual functions The theoretical arguments are illustrated and complemented by case studies using data from large corpora such as the BNC smaller purpose built corpora and Google searches By presenting theoretical positions in corpus linguistics Text Discourse and Corpora provides an essential overview for advanced undergraduate postgraduate and academic readers The Power of Words, 2006-01-01 This volume comprises essays in lexicography lexicology and semantics by leading international experts in these fields The contributions cover Old Middle and Present Day English and Scots and specific subjects include medical vocabulary colour lexemes and semantic and pragmatic meaning in terms for politeness money and humour In the area of Old English studies there are articles on kinship terminology and colour lexemes and in Middle English a semantic and syntactic study of the overlapping of the verbs dreden and douten Many of the essays make use of the Historical Thesaurus of English project at the University of Glasgow and pay tribute to its Director Professor Christian Kay e g one article demonstrates how the HTE a project which is at the interface between historical semantics and lexicography may present a rich resource for information about the lexicalization of concepts within our culture such as changing social attitudes in the area of will consent and coercion Other resources such as The Linguistic Atlas of Early Middle English and the Oxford English Dictionary provide a rich source for information on historical lexicography semantics and editing A number of essays concern the Scots language such as an analysis of evaluative terms in modern Scots speech and writing the rich potential of rhyme in Scots and the role of lexicon in th fronting in Glaswegian **Signs, Solidarities, and Sociology** Blasco José Sobrinho, 2001 Signs Solidarities Sociology addresses the formation and fragmentation of identity in today s postmodern world Informed by the conceptual convergence in the theories of Durkheim Peirce Mead and Lacan this book surveys the range of twentieth century sociology to deconstruct those favored nostrums of subjective meaning personal power and autonomous selfhood that comprise its semantics of agency Revealed beneath this semantic screen is the triad of pragmatic codes premodern affiliation modern calibration and postmodern
