Second Language Acquisition Research Methods:

Instructed Second Language Acquisition Research Methods Laura Gurzynski-Weiss, YouJin Kim, 2022-12-08 Written for novice and established scholars alike Instructed Second Language Acquisition Research Methods is a stand alone research methods guide from an Instructed Second Language Acquisition ISLA lens After offering foundations of conducting ISLA research the subsequent chapters are organized by four skill areas listening speaking reading writing and four major linguistic features grammar vocabulary pronunciation pragmatics In each chapter authors define the target sub domain of ISLA outline the basics of research design provide concrete guidance on crafting robust research questions identifying appropriate methodology and methods adapting an existing instrument or creating your own carrying out a study analyzing and interpreting data and determining how where when to share your work The volume also dedicates chapters to addressing common inquiries of conducting ISLA research e.g obtaining ethics permission recruiting your own students working with small and heterogeneous sample sizes accounting for individual differences and to maximizing research impact beyond academia Written by leading experts on each topic this book is an essential resource for ISLA SLA and research methods scholars

Research Methods in Second Language Acquisition Alison Mackey, Susan M. Gass, 2011-10-18 Research Methods in Second Language Acquisition With its cornucopia of information both thorough and practical this book is a must for our methodology shelves Its study questions and project suggestions will be a boon for many research methods courses Robert M DeKeyser University of Maryland This guide to collecting coding and analyzing second language acquisition data will be an essential reference for novice and experienced researchers alike Peter Robinson Aoyama Gakuin University Comprehensive and technically up to date yet accessible and cogent This remarkable textbook is sure to become a premier choice for the research training of many future SLA generations Lourdes Ortega University of Hawaii Alison Mackey and Susan Gass valuable new book offers hands on methodological guidance from established experts on all kinds of second language research Michael H Long University of Maryland Research Methods in Second Language Acquisition A Practical Guide is an informative guide to research design and methodology in this growing and vibrant field Utilizing research methods and tools from varied fields of study including education linguistics psychology and sociology this collection offers complete coverage of the techniques of second language acquisition research This guide covers a variety of topics such as second language writing and reading meta analyses research replication qualitative data collection and analysis and more Each chapter of this volume offers background step by step guidance and relevant studies to create comprehensive coverage of each method This carefully selected and edited volume will be a useful text for graduate students and scholars looking to keep pace with the latest research projects and methodologies in second language acquisition

Research Methodology in Second-Language Acquisition Elaine E. Tarone, Susan M. Gass, Andrew D. Cohen, 2013-11-05 This volume addresses salient theoretical issues concerning the validity of research methods in second language acquisition and provides critical

analysis of contextualized versus sentence level production approaches The contributors present their views of competence versus performance the nature of language acquisition data research design the relevance of contextualized data collection and interpretation and the desirability of a particularistic nomothetic theoretical paradigm versus more comprehensive consideration of multiple realities and complex influencing factors This book presents varying and antithetical approaches to the issues bringing together the thinking and approaches of leading researchers in language acquisition language education and sociolinguistics in an engaging debate of great currency in the field

Second Language Research Methods Herbert W. Seliger, Elana Goldberg Shohamy, Elana Shohamy, 1989 Based on a set of four research parameters this book discusses the development of research questions and hypotheses naturalistic and experimental research data collection and validation of research instruments Each chapter includes examples and activities

Second Language Research Alison Mackey, Susan M. Gass, 2013-06-17 Specifically targeted towards the needs of a second language research audience **Second Language Research Methodology and Design** addresses basic issues related to research design providing step by step instructions for how to carry out studies This up to date text includes chapters that cover identifying research problems and questions selecting elicitation measures dealing with ethical issues related to data gathering validity and reliability in research research in second and foreign language classroom contexts data description and coding and data analysis Also included is a chapter on the much needed and rarely addressed topic of writing up SLA research giving concrete suggestions about preparing for publication Principles of both qualitative and quantitative research are discussed in the context of design issues Throughout the book examples from applied linguistics second language acquisition and TESOL are provided Helpful discussion and data based skill building exercises at the end of each chapter promote better understanding of the principles discussed A glossary outlines the key terms in second language research

Second Language Research Methodology and Design is an ideal textbook for introductory and advanced classes in second language research methods as well as classes in related areas for example TESOL research methods

Current Approaches in Second Language Acquisition Research Alison Mackey, Susan M. Gass, 2023-05-10 Offers the most up to date coverage of research methods and best practices in the study of second language acquisition edited by two of the leading figures in the field **Current Approaches in Second Language Acquisition Research** provides an up to date overview of both traditional and cutting edge techniques and methods in the field Bringing together contributions from an international team of experts this authoritative volume covers the qualitative quantitative survey based interdisciplinary statistical analysis and data replication methods that students and early career researchers need to know when developing their projects and experiments in second language acquisition research Each chapter includes best practices case studies and research questions together with suggested readings which exemplify a wide range of contemporary methodologies

Current Approaches in Second Language Acquisition Research builds on the foundation of **Research Methods in Second Language Acquisition** the first volume in the Wiley Blackwell Guides to Research Methods

series to cover the field of SLA Eleven new chapters and four revised chapters address classroom research methods qualitative approaches to data collecting introspective second language L2 data L2 data on brain and articulatory mechanisms problematic terminology in the SLA community and more Covers theory based methodologies synthetic and meta analytic work mixed methods coding and statistical analysis Describes and evaluates recent methodological advances and experimental approaches in SLA research Includes study questions links to additional resources and example study boxes that summarize methodological principles and connect them to real world research studies Current Approaches in Second Language Acquisition Research is an essential resource for advanced undergraduate and graduate students in SLA and applied linguistics programs novice researchers studying SLA research methods and more established scholars looking for a concise and up to date overview of SLA methodology

Research Methods in Generative Second Language Acquisition Roumyana Slabakova, Tania Leal, Laura Domínguez, 2024-09-04 This timely text provides a comprehensive overview of the research methods used by the Generative Second Language Acquisition framework The authors lay out the history and state of the art in the field explain the theoretical underpinnings of this work and offer practical hands on guidance for developing conducting and understanding studies related to L2 grammatical competence using a rich array of techniques and advancing key insights into the rationale and circumstantial pros and cons of each method With useful features in a consistent chapter structure including diverse case studies and discussion questions the book will be an invaluable resource to students and researchers of SLA applied linguistics theoretical linguistics education and related areas

Experimental Methods in Language Acquisition Research Elma Blom, Sharon Unsworth, 2010-10-26 Experimental Methods in Language Acquisition Research provides students and researchers interested in language acquisition with comprehensible and practical information on the most frequently used methods in language acquisition research It includes contributions on first and child adult second language learners language impaired children and on the acquisition of both spoken and signed language Part I discusses specific experimental methods explaining the rationale behind each one and providing an overview of potential participants the procedure and data analysis as well as advantages and disadvantages and dos and don'ts Part II focuses on comparisons across groups addressing the theoretical applied and methodological issues involved in such comparative work This book will not only be of use to advanced undergraduate and postgraduate students but also to any scholars wishing to learn more about a particular research method It is suitable as a textbook in postgraduate programs in the fields of linguistics education and psychology

Advancing Quantitative Methods in Second Language Research Luke Plonsky, 2015-07-03 Advancing Quantitative Methods in Second Language Research is the first hands on guide to conducting advanced research methods in the fields of applied linguistics and second language studies While a number of texts discuss basic quantitative research methodology none focus exclusively on providing coverage of alternative advanced statistical procedures in second language studies from a practical approach The text is bookended by discussions of these advanced

procedures in the larger context of second language studies debating their strengths weaknesses and potential for further research the remaining chapters are how to sections each chapter following the same organization on a wide variety of advanced research methods By offering much needed coverage on advanced statistical concepts and procedures with an eye toward real world implementation *Advancing Quantitative Methods in Second Language Research* enhances the methodological repertoire of graduate students and researchers in applied linguistics and second language studies For additional content visit <http://oak.ucc.nau.edu/ldp3/AQMSLR.html>

Research Methods in Second Language Acquisition Alison Mackey, Susan M. Gass, 2012 *Research Methods in Second Language Acquisition: A Practical Guide* is an informative guide to research design and methodology for graduate students and scholars Each chapter of this volume offers background step by step guidance and relevant studies to create comprehensive coverage of each method Includes chapters by expert scholars on an array of topics including second language writing and reading meta analyses research replication qualitative data collection and analysis and more Includes feature boxes in each chapter highlighting relevant research studies discussion questions and suggested further readings Utilizes research methods and tools from varied fields of study including education linguistics psychology and sociology

Key Methods in Second Language Acquisition Research Alessandro G. Benati, 2015 *Key Methods in Second Language Acquisition Research* is a book written to help novice teachers and undergraduate students developing an awareness and understanding of the key methodological frameworks and processes used in second language research The book should also help readers generating ideas and researchable questions and adopting particular research methods and procedures to collect and analyse data The book is divided into three main parts *Key Stages in Second Language Research* Part One *Key Methodological Frameworks* Part Two *Mixed Frameworks and Psycholinguistics Methods* Part three

Advancing Quantitative Methods in Second Language Research Luke Plonsky, 2015 *Advancing Quantitative Methods in Second Language Research* is the first hands on guide to conducting advanced research methods in the fields of applied linguistics and second language studies While a number of texts discuss basic quantitative research methodology none focus exclusively on providing coverage of alternative advanced statistical procedures in second language studies from a practical approach The text is bookended by discussions of these advanced procedures in the larger context of second language studies debating their strengths weaknesses and potential for further research the remaining chapters are how to sections each chapter following the same organization on a wide variety of advanced research methods By offering much needed coverage on advanced statistical concepts and procedures with an eye toward real world implementation *Advancing Quantitative Methods in Second Language Research* enhances the methodological repertoire of graduate students and researchers in applied linguistics and second language studies For additional content visit <http://oak.ucc.nau.edu/ldp3/AQMSLR.html>

An Introduction to Second Language Acquisition Research Diane Larsen-Freeman, Michael H. Long, 2014-09-25 *Understanding how people learn and fail to learn second and foreign languages*

is increasingly recognised as a critical social and psycholinguistic issue Second languages are vitally important to diverse groups of people ranging from refugees to college students facing foreign language requirements This book provides a synthesis of empirical findings on second and foreign language learning by children and adults emphasising the design and execution of appropriate research *Research Methods in Generative Second Language Acquisition* Roumyana Slabakova, Tania Leal, Laura Domínguez (Linguist), 2024-08 This timely text provides a comprehensive overview of the research methods used by the Generative Second Language Acquisition framework **Approaches and Methods in French Second Language Acquisition Research** Martin Howard, 2025 Against the backdrop of the critical importance of recognising the specificity of learning languages other than English LOTEs in Second Language Acquisition SLA research this volume focuses on a state of the art presentation of the research approaches and methods that characterise French as second language L2 within contemporary SLA research The presentation problematises those approaches and methods as a critique of what has been done identifying a methodological roadmap of what needs to be done in order to advance the methodological agenda in L2 French and its contribution to wider SLA research The discussion further aims to bridge the interface between methodological issues and the research investigation of a specific LOTE French such as in terms of its linguistic characterisation and developmental issues underpinning its acquisition The analysis extends to approaches and methods across different theoretical paradigms in L2 French in different areas of linguistic development among learners in different learning contexts *Research Methods in Second Language Psycholinguistics* Jill Jegerski, Bill VanPatten, 2013-12-17 Addressing a rapidly growing interest in second language research this hands on text provides students and researchers with the means to understand and use current methods in psycholinguistics With a focus on the actual methods designs and techniques used in psycholinguistics research as they are applied to second language learners this book offers the practical guidance readers need to determine which method is the best for what they wish to investigate as well as the tools that will enhance their research Each methods chapter is written by a leading expert who describes discusses and comments on how a method is used and what its strengths and limitations are for second language research These chapters follow a specific format to ensure cohesion and a predictable structure across all chapters The chapters also inform the novice researcher on such key issues as ease of use costs potential pitfalls and other related matters each of which impact decisions that researchers make about the paths they take With the most reliable information available from experienced researchers *Research Methods in Second Language Psycholinguistics* is an essential resource for anyone interested in conducting second language research using psycholinguistic methods *Approaches to Research in Second Language Learning* Donna M. Johnson, 1991 Examines six major approaches to second language learning in the classroom The text studies correlational case study survey ethnography experimental and multi method research techniques It also includes illustrative studies methodological principles and an extended sample study **Research Methods for**

Understanding Child Second Language Development Yuko Goto Butler,Becky H. Huang,2022-09-15 Butler and Huang's book is one of the first to focus on second language L2 development research methods and techniques specifically targeted at children of primary and pre primary years The last decade has seen a growing number of L2 studies of children aged 4-12 a demographic with special developmental characteristics that confound research methods designed for studying adults Written by experts from a variety of disciplines this book covers major research methods and techniques in existing L2 development research including observations surveys interviews introspective methods speech production methods receptive methods eye tracking and brain imaging as well as research methods specifically designed for L2 children with special educational needs The book also discusses various age related considerations and challenges if they are employed to young L2 learners This will be essential reading for SLA child development and TESOL researchers and students in these courses will benefit particularly from pedagogical material such as further readings and discussion questions

The Handbook of Second Language Acquisition Catherine J. Doughty,Michael H. Long,2003-06-23 The Handbook of Second Language Acquisition presents an integrated discussion of key and sometimes controversial issues in second language acquisition research Discusses the biological and cognitive underpinnings of SLA mechanisms processes and constraints on SLA the level of ultimate attainment research methods and the status of SLA as a cognitive science Includes contributions from twenty seven of the world's leading scholars Provides an invaluable resource for all students and scholars of human cognition including those in linguistics psychology applied linguistics ESL foreign languages and cognitive science

Research Methods in Language Teaching and Learning Kenan Dikilitas,Kate Mastruserio Reynolds,2022-03-15 A practical guide to the methodologies used in language teaching and learning research providing expert advice and real life examples from leading TESOL researchers Research Methods in Language Teaching and Learning provides practical guidance on the primary research methods used in second language teaching learning and education Designed to support researchers and students in language education and learning this highly accessible book covers a wide range of research methodologies in the context of actual practice to help readers fully understand the process of conducting research Organized into three parts the book covers qualitative studies quantitative studies and systematic reviews Contributions by an international team of distinguished researchers and practitioners explain and demonstrate narrative inquiry discourse analysis ethnography heuristic inquiry mixed methods experimental and quasi experimental studies and more Each chapter presents an overview of a method of research an in depth description of the research framework or data analysis process and a meta analysis of choices made and challenges encountered Offering invaluable insights and hands on research knowledge to students and early career practitioners alike this book Focuses on the research methods techniques tools and practical aspects of performing research Provides firsthand narratives and case studies to explain the decisions researchers make Compares the relative strengths and weaknesses of different research methods Includes real world examples for each research method and

framework to highlight the context of the study Includes extensive references further reading suggestions and end of chapter review questions Part of the Guides to Research Methods in Language and Linguistics series Research Methods in Language Teaching and Learning is essential reading for students educators and researchers in all related fields including TESOL second language acquisition English language teaching and applied linguistics
