On a Global Mission: The Automobiles of General Motors International Volume 3 Louis F. Fourie, 2016-12-27 Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

Border Diptych Luis Mora-Ballesteros, 2024-02-12

Translator's Note: Perhaps Schopenhauer was right: I am all other men; any man is all men. Shakespeare is in some manner the miserable John Vincent Moon. By opening his debut novel with these lines borrowed from Borges, Venezuelan author Luis Mora Ballesteros foretells the central concern of his literary project: representing the universal in the particular. Here the particular in question is the writer's own Tchira State in the rural borderland that straddles Venezuela and Colombia. In its portrayal of this place and its people, Mora's work exemplifies the defining themes of the twenty-first century: migration, assimilation, and the creation of new collective identities. Diptych is a term borrowed from visual art that refers to a symmetrical composition laid out on two panels side by side. Diptych of the Border is likewise symmetrically composed. It weaves together stories of migrant families who for decades have fled endemic violence in Colombia to settle in an overlooked region of Venezuela, forming a hybrid identity unique to the area. Later in the novel, in the 2010s, we meet migrants escaping Venezuela's current economic disaster, moving in the other direction to form a new diasporic community in Colombia. Diptych attempts to show how such collective identities are constructed. In the following excerpt from the novel's opening pages, we see a mosaic of images, new surroundings that provoke a sense of difference: there's no sea here, snapshots of the violence that drives people away, the march of balaclavas and rifles, the conditions on the ranches and sugar plantations where some will end up as migrant workers, and countless small details that lend the text an authentic sense of place. The narrative moves loosely through space and time; events usually hinge around a shifting

expansive present tense We meet a character and are promptly told what will happen to them months or years in the future later in the novel we encounter them at another time and in changed circumstances without entirely knowing what happened in between This nonlinear temporality is characteristic of Mora s writing and suggestive of how trauma flattens time and distorts memory The central plot of the novel concerns a journalist Juan ngel who has traveled to the borderland to write a story on a mysterious guerilla leader We learn that he attempted to write a kind of cr nica or literary journalistic piece about the region before giving up and focusing on a straightforward feature story It s revealed that many sections of the novel including this excerpt are part of the failed cr nica With this narrative framing device Mora creates another layer of symmetry in his diptych the style continually oscillates between free flowing prose poetry the cr nica and a tighter realism that relates Juan ngel s investigations This collating of heterogeneous styles results in a work that straddles the line between tradition and avant garde Bernardo Navarro Villarreal writing in Latin American Literature Today The book was a finalist in Spain s 2019 Mart n Fierro competition for novels of social criticism It is the first volume of a planned trilogy Alex Halatsis
