Production Management and Business Development Bohuslava Mihalčová,Petra Szaryszová,Lenka

Štofová,Michal Pružinský,Barbora Gontkovičová,2018-12-07 Trends in economic development rely on increasing human knowledge which stimulate the development of new sophisticated technologies With their utilization production is raised and the intent is to decrease natural resources consumption and protect and save our life environment as much as we can At the same time increasing pressure is observed both from competition and customers The way to be competitive is by improving manufacturing and services offered to the customer These are the major challenges of contemporary enterprises Organizations are improving their activities and management processes This is necessary to manage the seemingly intensifying competitive markets successfully Enterprises apply business optimizing solutions to meet new challenges and conditions This way ensuring effective development for long term competitiveness in a global environment This is necessary for the implementation of qualitative changes in the industrial policy Process Control and Production Management MTS 2018

is a collection of research papers from an international authorship The authors present case studies and empirical research which illustrates the progressive trends in business process management and the drive to increase enterprise sustainability development *Engineering and Social Justice* Donna M. Riley,2008 The profession of engineering in the United States has historically served the status quo feeding an ever expanding materialistic and militaristic culture remaining relatively unresponsive to public concerns and without significant pressure for change from within This book calls upon engineers to cultivate a passion for social justice and peace and to develop the skill and knowledge set needed to take practical action for change within the profession Because many engineers do not receive education and training that support the kinds of critical

thinking reflective decision making and effective action necessary to achieve social change engineers concerned with social justice can feel powerless and isolated as they remain complicit Utilizing techniques from radical pedagogies of liberation and other movements for social justice this book presents a roadmap for engineers to become empowered and engage one another in a process of learning and action for social justice and peace
