Secession and Statehood Ana Gemma López Martín, José Antonio Perea Unceta, 2021-09-08 This book analyses the complex phenomenon of secession as a form of creation of States from the perspective of international law As opposed to other approaches based on the analysis of the political foundation of the secessionist processes or on the construction of a legal basis that justifies the existing practice the aim is to provide an explanation of secession as a practice covered neither by the legal regime of the United Nations for the self determination of colonial peoples nor by the regulations and guidelines relating to the human rights of minorities and indigenous populations both in the UN and in regional organisations Organization of American States Council of Europe or African Union It is stated that secession is a practice that does not comply with international peremptory norms such as those that prohibit going against the territorial integrity of the States the use of force or intervention in the internal affairs of other States Even being aware of the inevitable consequences of the effective creation of States and other de facto entities on trade relations communications and the rights of individuals among other matters secession is a practice that should lead to an obligation of nonrecognition by States and by international

organisations As an example of this practice the secessionist process in Catalonia since 2014 is explained and studied

The US-DPRK Peace Treaty: A Commentary Eric Yong Joong Lee, Ridoan Karim, 2022-09-21 This book delivers an in depth analysis of the US DPRK Peace Treaty which will be concluded as a final result of the Korean Peninsula peace process that is currently ongoing Since North Korea launched its nuclear weapons development program in the early 1990s the Korean peninsula has become a critical point of global politics along with the Sino American G2 hegemonic competition The US DPRK Peace Treaty is the key to the denuclearization and de jure peace on the peninsula as well as Northeast Asia Different from the comprehensive peace treaty between the four parties US China and the two Koreas already proposed for the past few years the book suggests a bilateral approach to the agreement between the US and the DPRK which will trigger the peace as a system considering the US s practices in this regard after 1783 Such a challenging and provocative method provides deeper understanding of the legal and political circumstances for the expected US DPRK Peace Treaty The book will navigate scholars practitioners and students towards terminating the 1953 Armistice establishing nuclear peace as well as a rapprochement between the two countries In practice it will be a useful guideline for the conflicting parties in the various parts of the globe to adopt peace treaties in the twenty first century **Department of State Publication**, 1965
