The Moon Origin Revealed Elberto Vergara Badon, 2025-01-30 Anybody can best appreciate the mesmerizing beauty of those luminaries in Heaven that is if anyone starts scientifically seeking their naturalistic origin Specifically in harmony with various faiths ancient written passages and oral traditions exhibiting extraordinary wisdom One of those luminaries is the Moon Lunar Scientists were in a critical frenzy when astronauts brought back rock samples which discarded the theories of the Moon s origin None match the beguiling attributes of the Moon Earth and the Moon are Isotopic twins The Moon has the right chemical blend with Earth Incredibly after three decades of hunting clues and riddles the scientists quest to find out how the Moon entwined with Earth finally ended Consider the passages in the Bible Psalm 19 1 6 The Heaven declares the Glory of God In Heaven God pitched a tent for the Sun It is like a bridegroom coming out of his chamber to run a course The passage portrays the Sun once encased by the rocky shell shielded by the Heliosphere bubble A midsize Star in the Milky Way Galaxy cruised along the Orion arm until it sunk into a giant Nebula Over time the cocooned Star gained mass infill It turned the interior into an alchemical laboratory wherein countless plasmaspheres circled the fast spinning Star These plasmaspheres concealed primordial hydrogen and helium ion solutions that upgraded into an inner core of the planetary bodies a fusion nuclear reactor While streaming around the spinning stellar core these plasmaspheres clung to the more enormous spheres Thus a mass surrogacy process transpired The heavy radioactive elements gravitated and accrued around the developing spinning sphere which later transformed into a dual inner core system both fusion and fission reactors The cocooned brilliant Star evolved into the core of a supergiant planet Sol In her biosphere countless microbes hitch a ride on cosmic dust Later on the planets ejected having their satellites in their womb intact The Earth s developing Moon was already in full term and ready to emerge It was buoyed by the expanding plasma until it nestled in the Pacific Ocean Underneath the cooling spheroid a colossal methane bubble detonated The Moon received a massive energy kick and lofted into the sky After crashing the Earth s surface for millions of years it gained mass The bloated Moon exited over Antarctica leaving behind an irreparable Gaping Hole in the Ozone Layer with an area three 3 times that of Brazil As per Science during

the Snowball Earth the North Mid latitude was covered with a 3 km thick ice sheet Was the Sunlight not yet in commission If so what was responsible for the plants photosynthesis The living creatures need heat Check the craters of the Moon facing Earth it displays brilliant rays of glassy surfaces This mesmeric scenario would be altered once the yellow Star hatched from its rocky crustal shell dispersing its detritus into space a precursor of a terrible Global Deluge By presenting a new manner of thinking coming from different discernment undeniably this writing may yield surprises A paradigm shift Some great ideas may unfold

Migration and Urbanization: Local Solutions for Global Economic Challenges Ushakov, Denis, 2019-08-16 International migration and urbanization as economic processes can provide great opportunities to solve local and regional economic and social problems and lead to the leveling of global economic unfairness and multi complexity However uncontrolled migration and urbanization can easily destroy market stability and create many new social and economic problems both in developed due to migration and developing due to urbanization countries Migration and Urbanization Local Solutions for Global Economic Challenges is a collection of innovative research that sets basic rules and patterns for state regulation of urbanization and international migration and for increasing the economic efficiency of developed and developing countries Additionally the book evaluates the economic impact of urbanization and international migration at the global national and regional levels While highlighting topics including economic security modern mechanisms and migration policy this book is ideally designed for government officials economists educators policymakers industry leaders business managers academicians researchers and students
