

Chapter 2 Learning: Principles and Applications

Sec 1: Classical Conditioning

Learning – a relatively permanent change in behavior that results from experience

- Three Basic Types:
 1. Classical Conditioning
 2. Operant Conditioning
 3. Modeling

Classical Conditioning – a neutral stimulus acquires the ability to evoke a response that was originally evoked by another stimulus

1. Ivan Pavlov – Russian scientist, while studying digestion discovered classical conditioning
2. Neutral Stimulus – does not initially elicit a response
3. Unconditioned Stimulus (UCS) – an event that elicits a certain predictable response without previous training
4. Unconditioned Response (UCR) – an organism's automatic (natural) reaction to a stimulus
5. Conditioned Stimulus (CS) – a once-neutral event that has come to elicit a given response after a period of training in which it has been paired with an UCS
6. Conditioned Response (CR) – learned reaction to a CS

Pilgrim, Sheri Vasinda, Peggy S. Lisenbee, 2025-03-21 In the second edition this text has been updated to address changing literacies surrounding students and the continued importance of effective communication using technology tools in K 12 classrooms Technology has the power and potential to transform teaching and learning in classrooms and to promote active learning interaction and engagement through readily available tools and applications While both technologies and research in literacy education rapidly evolve this book presents lasting frameworks for teachers to effectively evaluate and implement digital tools to enhance classroom literacies and learning Through the lens of Universal Design for Learning UDL this text equips educators to develop inclusive learning environments that support the needs and desires of all literacy learners through the integration of technology and literacy instruction This text presents a range of current models and frameworks including SAMR RAT PICRAT T3 TPACK TIPC and EMSCI The new edition of this book has been updated to include Alignment with ISTE standards in each chapter Updates from the 2024 UDL Guidelines 3.0 Updates from the most recent 2024 National Educational Technology Plan Updated technology applications including AI and its impact Tools for teaching through remote and distance learning Each chapter includes prompts for reflection and discussion to encourage readers to consider ways literacy and technology can enable teachers to become agents of change This book will be especially beneficial for pre service undergraduate and graduate teacher candidates as well as ISTE certified educators and those seeking certification

Making Schools Work Kathy Hirsh-Pasek, Roberta Michnick Golinkoff, Kimberly Nesbitt, Carol

Lautenbach, Elias Blinkoff, Ginger Fifer, 2022 If we teach in the way that human brains learn both students and their teachers will thrive This book aligns evidence from the learning sciences on how and what students need to learn with classroom practice pre K 12 It demonstrates with hands on examples how a change in educational mindset rather than in curriculum can improve student outcomes on both standardized tests and a breadth of 21st century skills skills Written collectively by classroom teachers administrators parents and learning scientists this book shows readers how to co construct and reimagine an optimal educational system Making Schools Work offers three case studies of schools including a statewide system that are all realizing a 6 Cs approach to learning focused on collaboration communication content critical thinking creative innovation and confidence The text documents the ever evolving implementation process as well as outcomes and the ongoing work of stakeholders Readers can use this resource to create an education for all children that is culturally responsive inclusive effective and fun Book Features Helps educators teach in the way that human minds learn Jointly written in accessible language by teachers administrators parents and learning scientists Offers hands on ways to reimagine classrooms without investing in new curricula Puts teachers in the driver s seat reminding them of why they teach Provides culturally responsive inclusive effective and fun strategies Offers children the possibility of learning the skills they will need for 21st century skills success Most of us agree that it is critical at this moment in time to reimagine what school could be This reimagination must be informed by the best available science and built on current educational wisdom found in our

schools This book does just that and makes clear that more playful learning across the K 12 school system would be the most natural way to help all students learn the 21st century knowledge and skills they need in life From the Foreword by Pasi Sahlberg author of Finnish Lessons 3 0 What Can the World Learn from Educational Change in Finland and professor of education Southern Cross University Lismore Australia
