*A Critical Dictionary of English Literature and British and American Authors, Living and Deceased, from the Earliest Accounts to the Latter Half of the Nineteenth Century* Samuel Austin Allibone, 1891     *A Critical Dictionary of English Literature, and British and American Authors, Living and Deceased, from the Earliest Accounts to the Middle of the Nineteenth Century* Samuel Austin Allibone, 1892     **Characteristics of English poets from Chaucer to Shirley** William Minto, 1885     Planning Chinese Characters Shouhui Zhao, Richard B. Jr. Baldauf, 2007-10-30 One of the remarkable things about Chinese language policy over the millennia has been the power of the writing system to unite what are disparate if related spoken varieties We have already published one book on PRC language policy in this series a collection edited by Minglang Zhou that covered the full range of topics including the development of Putonghua common speech the status of minority languages and some interesting chapters on the reform of the writing system This last subject is of such complexity and importance to justify adding to the series a book going into more detail on developments in efforts to manage and cultivate the writing system in the last 50 years taking into account the rapid growth of the Chinese economy and the technological developments associated with computers and the web It is important we feel to back up the common generalizations about language policy with detailed studies of specific topics where one can observe at close hand the plans and activities of language managers the problems they set out to solve and their successes and failures This is precisely what Zhao and Baldauf set out to do in this full account and analysis of the challenges met by recent efforts to adjust the Chinese writing system to new demands We would like to express our thanks to the authors and to the others who contributed to the production of this volume     **Characteristics of English Poets from Chaucer to Shirley** William Minto, 1874     *Subject Headings Used in the Dictionary Catalogs of the Library of Congress* Library of Congress, Library of Congress.
