10. **Additional 20% off** means the amount of savings is **20%** of the amount after the original discount. **20% off** means you are getting 20% off the price.

Here's what the chart tells about double discounts: you always receive a maximum amount of savings. For example, if you start with \$1000, the maximum amount of savings is \$200, or 20% of \$1000.

11. **Order** is important in a double discount because the order of discounts can affect the final price.

For example, if you start with \$1000 and receive 10% off first, then 20% off, you will receive a total of \$720. If you receive 20% off first, then 10% off, you will receive a total of \$720.
