Trauma, Cultural Complexes, and Transformation Evija Volfa Vestergaard, 2018-06-28 Trauma Cultural Complexes and Transformation Folk Narratives and Present Realities contributes to our understanding of how culturally traumatic events affect present day realities and suggests the potential for healing by combining theories on psychological trauma cultural complexes and transformations It draws on insight from a range of disciplines including Jungian psychology literary criticism folkloristics neurosciences quantum physics and social studies Evija Volfa Vestergaard maps folk narratives of human encounters with extra human entities as communications of cultural traumas suffered by tellers who are embedded in particular historical and
