## **Intermediate Statistics A Modern Approach 2nd Edition:**

**Intermediate Statistics** James Stevens, 2000-08-01 Intermediate Statistics fully integrates SAS and SPSS The chapter on factorial ANOVA features thorough discussions of the unequal cell size case and interpreting effects in three way designs and an extensive computer example of real data which integrates many of the concepts In addition there are substantial chapters on covariance and repeated measures analysis Special features of this second edition include a new chapter on multiple regression inclusion of SPSS for Windows 8.0 and Statview and Pass 6.0 for power analysis **Levine's Guide to SPSS for Analysis of Variance** Sanford L. Braver, David P. MacKinnon, Melanie Page, 2003-06-20 Provides instructions and examples for running analyses of variance and other related statistical tests of significance using SPSS V11 using pull down menus or writing programs or syntax Prerequisite includes a basic understanding of ANOVA techniques Second International Handbook of Science Education Barry J. Fraser, Kenneth Tobin, Campbell J. McRobbie, 2011-12-13 The International Handbook of Science Education is a two volume edition pertaining to the most significant issues in science education It is a follow up to the first Handbook published in 1998 which is seen as the most authoritative resource ever produced in science education The chapters in this edition are reviews of research in science education and retain the strong international flavor of the project It covers the diverse theories and methods that have been a foundation for science education and continue to characterize this field Each section contains a lead chapter that provides an overview and synthesis of the field and related chapters that provide a narrower focus on research and current thinking on the key issues in that field Leading researchers from around the world have participated as authors and consultants to produce a resource that is comprehensive detailed and up to date The chapters provide the most recent and advanced thinking in science education making the Handbook again the most authoritative resource in science education *Multidisciplinary Methods in Educational Technology Research and Development* Justus J. Randolph, 2008 Over the past thirty years there has been much dialogue and debate about the conduct of educational technology research and development In this brief volume the author helps clarify that dialogue by theoretically and empirically charting the research methods used in the field and provides much practical information on how to conduct educational technology research Within this text readers can expect to find answers to the following questions a What are the methodological factors that need to be taken into consideration when designing and conducting educational technology research b What types of research questions do educational technology researchers tend to ask c How do educational technology researchers tend to conduct research d What approaches do they use What variables do they examine What types of measures do they use How do they report their research d How can the state of educational technology research be improved In addition to answering the questions above the author a research methodologist provides practical information on how to conduct educational technology research from formulating research questions to collecting and analyzing data to writing up the research reports in each of the major quantitative and qualitative traditions Unlike other

books of this kind the author addresses some of research approaches used less commonly in educational technology research but which nonetheless have much potential for creating new insights about educational phenomena approaches such as single participant research quantitative content analysis ethnography narrative research phenomenology and others

Multidisciplinary Methods in Educational Technology Research and Development is an excellent text for educational technology research methods courses a useful guide for those conducting or supervising research and a rich source of empirical information on the art and science of educational technology research Key Questions in Educational Technology Methods Choice are appended Contains 13 figures and 13 tables This publication was produced by the HAMK University of Applied Sciences
