# Ouspensky

**Petr Dem'ianovich Uspenskii**

## **Ouspensky:**

**The Fourth Way** P. D. Ouspensky, 2022-08-23 The Fourth Way is one of the most authentic works on G I Gurdjieff teachings It gives a lucid explanation of the practical side of the teaching and shows a way of inner development to be followed under the ordinary conditions of life The Fourth Way is a guide for those who seek a true way of inner growth under conditions open to the men and women of today The current revised edition includes updated high definition tables and diagrams

**In Search of P. D. Ouspensky** Gary Lachman, 2006-10-25 P D Ouspensky s classic work In Search of the Miraculous was the first to disseminate the ideas of G I Gurdjieff the mysterious master of esoteric thought in the early twentieth century who still commands a following today Gurdjieff s mystique has long eclipsed Ouspensky once described by Gurdjieff as nice to drink vodka with but a weak man Yet Ouspensky was a brilliant accomplished philosopher in his own right and some consider his meeting with the charismatic Mr G the catastrophe of his life Indeed in subsequent years Ouspensky tried hard with limited success to break away This book moves Ouspensky s own story center stage against the backdrop of the Russian Revolution the dervishes of Constantinople and a cosmopolitan Europe entre deux guerres The archetypal encounter it describes echoes that of Don Juan and Castaneda or perhaps Mephistopheles and Faust One of the great mystical adventures of our time it will fascinate everyone interested in the farthest reaches of what it means to be human The paperback edition includes a new chapter on Gary Lachman s own former work in Gurdjieff s psychology

**The Strange Life of P.D.Ouspensky** Colin Wilson, 2019-02-21 One of the most original thinkers of the twentieth century Pyotr Demianovich Ouspensky was a complex and romantic soul A promising young intellectual in Tsarist Russia he won recognition as a novelist and philosopher yet descended into self chosen obscurity as a teacher of the Work the system of his great contemporary Gurdjieff Today it is as Gurdjieff s chief disciple that he is remembered yet Colin Wilson argues convincingly that he is to be considered a major writer and man of genius in his own right A nostalgic melancholy Russian one of Ouspensky s deepest instincts was that man can find his own salvation yet towards the end of his turbulent life he lost faith in the System and drank himself to death With sympathy and admiration Colin Wilson throws new light on this gentle man and deep thinker

**A New Model of the Universe** P.D. OUSPENSKY, 2025-10-04 A New Model of the Universe 1931 is one of the most influential works of Russian philosopher and mystic P D Ouspensky where he combines philosophy science religion and esotericism in an attempt to offer a unified vision of human knowledge The book explores themes such as the perception of time relativity depth psychology mystical traditions religious symbolism and the nature of consciousness Ouspensky seeks to integrate the rational thought of modern science with the timeless truths of philosophy and spirituality showing that mystical experience and scientific knowledge are not opposites but complementary paths to understanding reality Throughout its pages the author proposes that reality is far broader than what ordinary senses can perceive and that human beings have the potential to reach higher states of consciousness through study inner discipline and openness to

transcendent knowledge A New Model of the Universe is not merely a theoretical reflection but also a practical invitation to expand the mind and transcend the limits of a purely materialistic worldview This work established Ouspensky as one of the most important voices in twentieth century esoteric thought

**In Search of the Miraculous: Fragments of an Unknown Teaching** Peter Demianovich Ouspensky, 1957-01-01 I RETURNED to Russia in November 1914 that is at the beginning of the first world war after a rather long journey through Egypt Ceylon and India The war had found me in Colombo and from there I went back through England When leaving Petersburg at the start of my journey I had said that I was going to seek the miraculous The miraculous is very difficult to define But for me this word had a quite definite meaning I had come to the conclusion a long time ago that there was no escape from the labyrinth of contradictions in which we live except by an entirely new road unlike anything hitherto known or used by us But where this new or forgotten road began I was unable to say I already knew then as an undoubted fact that beyond the thin film of false reality there existed another reality from which for some reason something separated us The miraculous was a penetration into this unknown reality And it seemed to me that the way to the unknown could be found in the East Why in the East It was difficult to answer this In this idea there was perhaps something of romance but it may have been the absolutely real conviction that in any case nothing could be found in Europe On the return journey and during the several weeks I spent in London everything I had thought about the results of my search was thrown into confusion by the wild absurdity of the war and by all the emotions which filled the air conversation and newspapers and which against my will often affected me But when I returned to Russia and again experienced all those thoughts with which I had gone away I felt that my search and everything connected with it was more important than anything that was happening or could happen in a world of obvious absurdities 1 I said to myself 1 That refers to a little book I had as a child The book was called Obvious Absurdities it belonged to Stupin s Little Library and consisted of such pictures as for instance a man carrying a house on his back a carriage with square wheels and similar things This book impressed me very much at that time because there were many pictures in it about which I could not understand what was absurd in them They looked exactly like ordinary things in life And later I began to think that the book really gave pictures of real life because when I continued to grow I became more and more convinced that all life consisted of obvious absurdities Later experiences only strengthened this conviction Then that the war must be looked upon as one of those generally catastrophic conditions of life in the midst of which we have to live and work and seek answers to our questions and doubts The war the great European war in the possibility of which I had not wanted to believe and the reality of which I did not for a long time wish to acknowledge had become a fact We were in it and I saw that it must be taken as a great memento mori showing that hurry was necessary and that it was impossible to believe in life which led nowhere The war could not touch me personally at any rate not until the final catastrophe which seemed to me inevitable for Russia and perhaps for the whole of Europe but not yet imminent Though then of course the approaching catastrophe looked only temporary and no one had as

yet conceived all the disintegration and destruction both inner and outer in which we should have to live in the future Summing up the total of my impressions of the East and particularly of India I had to admit that on my return my problem seemed even more difficult and complicated than on my departure India and the East had not only not lost their glamour of the miraculous on the contrary this glamour had acquired new shades that were absent from it before I saw clearly that something could be found there which had long since ceased to exist in Europe and I considered that the direction I had taken was the right one But at the same time I was convinced that the secret was better and more deeply hidden than I could previously have supposed When I went away I already knew I was going to look for a school or schools I had arrived at this long ago I realized that personal individual efforts were insufficient and that it was necessary to come into touch with the real and living thought which must be in existence somewhere but with which we had lost contact This I understood but the idea of schools itself changed very much during my travels and in one way became simpler and more concrete and in another way became more cold and distant I want to say that schools lost much of their fairy tale character On my departure I still admitted much that was fantastic in relation to schools Admitted is perhaps too strong a word I should say better that I dreamed about the possibility of a non physical contact with schools a contact so to speak on another plane I could not explain it clearly but it seemed to me that even the beginning of contact with a school may have a miraculous nature I imagined for example the possibility of making contact with schools of the distant past with schools of Pythagoras with schools of Egypt with the schools of those who built Notre Dame and so on It seemed to me that the barriers of time and space should disappear on making such contact The idea of schools in itself was fantastic and nothing seemed to me too fantastic in relation to this idea And I saw no contradiction between these ideas and my attempts to find schools in India It seemed to me that it was precisely in India that it would be possible to establish some kind of contact which would afterwards become permanent and independent of any outside interferences On the return voyage after a whole series of meetings and impressions the idea of schools became much more real and tangible and lost its fantastic character This probably took place chiefly because as I then realized school required not only a search but selection or choice I mean on our side That schools existed I did not doubt But at the same time I became convinced that the schools I heard about and with which I could have come into contact were not for me They were schools of either a frankly religious nature or of a half religious character but definitely devotional in tone

**P. D. Ouspensky, The Philosopher of the Fourth Way: Life, Work and Legacy** Ricardo Motta / Swami Kadakrshna, 2025-10-26 Ouspensky The Philosopher of the Fourth Way In this fascinating book dive into the mind of one of the greatest thinkers of the 20th century P D Ouspensky and discover how his teachings continue to illuminate the path for those seeking to understand consciousness and transcend the mechanical nature of modern life With a clear and profound approach this work reveals the journey of a man who devoted his life to the pursuit of inner truth and the development of mindful awareness More than a biography this book is an invitation to

transformation It presents the foundations of the Fourth Way a method of self knowledge that unites philosophy psychology and practical spirituality Through concepts such as self remembering conscious work and unification of being the reader finds a precise map for the awakening of consciousness Each chapter leads the reader into a new dimension of Ouspensky s thought from the multiplicity of the self to the struggle against negative emotions from the illusion of free will to the search for true freedom With an engaging and accessible language the book shows that true knowledge is not acquired solely by the intellect but is earned through direct experience and inner effort Ouspensky The Philosopher of the Fourth Way is an essential read for seekers philosophers psychologists and all who feel that ordinary life conceals a deeper reality It offers a bridge between the visible and the invisible between the ordinary man and the awakened man between time and eternity Allow yourself to walk alongside Ouspensky on this journey of self discovery Each page is a reminder that true freedom is not external it is born from inner awakening and the constant remembrance of who we truly are Kadakrshna **Tertium**

**Organum** P. D. Ouspensky, 2012-09-25 Tertium Organum is a vintage classic written by P D Ouspensky concerning the nature of the universe and cosmic consciousness Whatever the verdict of the philosophical pundits of the day and hour whether favorable or otherwise Ouspensky is sure of a place in the hierarchy of philosophers for he has essayed to solve the most profound problems of human existence by the aid of the binocular vision of the mathematician and the mystic Starting from the irreducible minimum of knowledge he has carried philosophy into regions not hitherto explored Joseph Conrad and Ford Madox Hueffer once wrote a novel called The Inheritors and by this they meant the people of the fourth dimension Though there is small resemblance between Ouspensky s superman and theirs it is his idea also that those of this world who succeed in developing higher dimensional or cosmic consciousness will indeed inherit will control and regulate human affairs by reason of their superior wisdom and power **Remembering Pyotr Demianovich Ouspensky** Merrily E. Taylor, 1978

*Gurdjieff, Ouspensky and Fragments* Boris Mouravieff, 1997-06 *In Search of the Miraculous: The Definitive Exploration of G. I. Gurdjieff's Mystical Thought and Universal View (Revised)*. P. D. Ouspensky, 2001 **Don't Forget** Bob Hunter, 2006 Born in Russia in 1878 P D Ouspensky was one of the major esoteric thinkers of the twentieth century Ouspensky had already travelled widely searching for esoteric knowledge and was an expert on occult literature and the fourth dimension when he met G I Gurdjieff in 1915 The methods and ideas both psychological and cosmological that Gurdjieff gave Ouspensky exceeded anything he had previously encountered Although he subsequently parted from Gurdjieff Ouspensky never ceased to practise and teach the ideas of the system Ouspensky s books *In Search of the Miraculous* *The Psychology of Man s Possible Evolution* and *The Fourth Way* are still the finest introductions to the Fourth Way Don t Forget follows Ouspensky s outer life as the revolutions and wars of the first half of the twentieth century force him from Russia to Constantinople to Paris London and New York in parallel with the development of his inner life and thought Bob Hunter s biography is the fullest and most detailed available and contains previously unpublished material on the final phase of

Ouspensky's life Bob Hunter is the author of several books on the Fourth Way teachings including *The True Myth* Beryl Pogson's *Teaching on Gurdjieff's All and Everything* *Rogue Elephant Transforming negative Emotions* and *A Pupil's Postscript* Beryl Pogson *Teaching the Fourth Way* With a foreword by Andrew Phillip Smith author of *The Gospel of Thomas A New Version Based On the Inner Meaning* *The Gospel of Philip Annotated Explained* and *The Lost Sayings of Jesus Annotated Explained* *Psychological Commentaries on the Teaching of Gurdjieff & Ouspensky* by Maurice Nicoll Gurdjieff Society of Washington, D.C., 1989 *The Psychology of Man's Possible Evolution* Peter Demianovich Ouspensky, 1973-01-01 SOME YEARS ago I began to receive letters from readers of my books All these letters contained one question what I had been doing after I had written my books which were published in English in 1920 and 1931 and had been written in 1910 and 1912 I could never answer these letters It would have needed books even to attempt to do this But when the people who wrote to me lived in London where I lived after 1921 I invited them and arranged courses of lectures for them In these lectures I tried to answer their questions and explain what I had discovered after I had written my two books and what was the direction of my work In 1934 I wrote five preliminary lectures which gave a general idea of what I was studying and also of the lines along which a certain number of people were working with me To put all that in one or even in two or three lectures was quite impossible so I always warned people that it was not worth while hearing one lecture or two but that only five or better ten lectures could give an idea of the direction of my work These lectures have continued since then and throughout this time I have often corrected and rewritten them On the whole I found the general arrangement satisfactory Five lectures were read in my presence or without me listeners could ask questions and if they tried to follow the advice and indications given them which referred chiefly to self observation and a certain self discipline they very soon had a quite sufficient working understanding of what I was doing I certainly recognised all the time that five lectures were not sufficient and in talks that followed them I elaborated and enlarged the preliminary data trying to show people their own position in relation to the New Knowledge I found that the chief difficulty for most people was to realise that they had really heard new things that is things that they had never heard before They did not formulate it for themselves but in fact they always tried to contradict this in their minds and translate what they heard into their habitual language whatever it happened to be And this certainly I could not take into account I know that it is not an easy thing to realize that one is hearing new things We are so accustomed to the old tunes and the old motives that long ago we ceased to hope and ceased to believe that there might be anything new And when we hear new things we take them for old or think that they can be explained and interpreted by the old It is true that it is a difficult task to realize the possibility and necessity of quite new ideas and it needs with time a revaluation of all usual values I cannot guarantee that you will hear new ideas that is ideas you never heard before from the start but if you are patient you will very soon begin to notice them And then I wish you not to miss them and to try not to interpret them in the old way *A Record of Some of the Meetings Held by P.D. Ouspensky Between 1930 and 1947* Petr Dem'ianovich

Uspenskiĭ,1951 The collected transcripts of many lectures and meetings held by Ouspensky during the 1930s and 1940s deal with issues ranging from evolution the will the self and religion to culture thought and intelligence **Psychological Commentaries on the Teaching of G. I. Gurdjieff and P. D. Ouspensky** Maurice Nicoll,1972 Tertium Organum P. D. Ouspensky,2022-01-04 Tertium Organum or the third canon of thought gives a new view of the perception of the world In Tertium Organum the author offers the shift of the paradigm and speaks of higher consciousness or the consciousness of the fourth dimension the domain for the personal development of the human the ability to control your emotions and actions The book is inspired by the teachings of Gurdjieff about the Fourth Way According to this philosophy there are three ways of self development the Way of the Fakir developing physical body the Way of the Monk dealing with the emotions and the Way of the Yogi mastering the mind Yet there is another way the Fourth Way that enables a human being to combine all three ways and live in harmony of body spirit and mind Ouspensky applies this theory to the study of time and space where he defines time as the fourth dimension of space and personality The book s name is the allusion to the Organum of Aristotle which laid the basis for the development of science and the Organum Novus by Francis Bacon who defined knowledge as only those facts that can be checked empirically Conscience Petr Dem'ianovich Uspenskiĭ,1979-01-01 James McNeill Whistler Eleanor Prendergast,1925 **Psychological Commentaries on the Teaching of Gurdjieff and Ouspensky** Maurice Nicoll,1996-08-01 When Maurice Nicholl was studying in Zurich he met Jung and Ouspensky He went on to study with Gurdjieff and from 1931 to his death in 1953 he began at Ouspensky s request a programme of work devoted to passing on the ideas he had received Reissued in hard cover these five unedited commentaries are taken from the weekly lectures and talks Nicoll gave to his students in England and which were recorded verbatim the sixth volume is an index produced by the Gurdjieff society Washington DC These differ from Nicholl s more polished works they are more concerned with directly applying certain deep ideas to daily life *The Encyclopedia of Religion and Nature: K-Z* Bron Raymond Taylor,Jeffrey Kaplan,2005 The Encyclopedia of Religion and Nature originally published in 2005 is a landmark work in the burgeoning field of religion and nature It covers a vast and interdisciplinary range of material from thinkers to religious traditions and beyond with clarity and style Widely praised by reviewers and the recipient of two reference work awards since its publication see [www.religionandnature.com](http://www.religionandnature.com) ern this new more affordable version is a must have book for anyone interested in the manifold and fascinating links between religion and nature in all their many senses
