CHAPTER 1

Section 1: Population Dynamics (page 10-15)

Compare methods used about population characteristics.

Methods of population data collection are categorized as follows:

cross-sectional population study

cohort dependent study

case-control dependent study

population

Some characteristics that all populations have include (1) **population density**

(2) **population size** and (3) **population structure**. Population size is

the number of individuals in a population, and the term population structure

refers to the age, sex, and other characteristics of the individuals. Factors that limit population

growth are **density-dependent** or **density-independent**.

Compare methods used about population characteristics.

Compare methods by marking the correct column. (Use the key provided.)

Characteristic	Density-Dependent	Density-Independent
