1.1 BACKGROUND TO THE STUDY

The World is experiencing an information knowledge revolution that is fundamentally transforming how human activities are carried out. Governments worldwide are adopting e-government as a means of improving their services to businesses and citizens, promoting economic and social development, and enhancing the effectiveness and efficiency of government operations (Balogun, 2006).

The computer plays a vital role in the development of any company it also saves some of the complex problems that are been faced by man and processes voluminous data within a short time or at an incredible speed (Kumar, 2016).

The rapid advancement of mobile technology has significantly transformed various aspects of our lives, including how we engage in commerce and interact within our communities. College and university students, in particular, form a vibrant and dynamic community that often requires a convenient and efficient platform to buy, sell, and trade items within their local campus environment. Traditional methods of classified advertisements and physical bulletin boards are no longer adequate to meet the diverse needs and preferences of modern students.

The emergence of mobile applications has opened up new possibilities for facilitating peer-to-peer transactions and fostering community engagement among students. The

shows how these factors are central to the ways in which lecturers and teachers communicate with each other to create constructive opportunities for learning The chapters on practical considerations detail the peer review process and include case studies from institutions in Africa Europe North America and Australia which focus on different areas of the topic including peer review as a quality assurance mechanism peer review in distance education peer review in foundation courses and peer review embedded within a department and across a university The book ends with an international perspective on the role of peer review in ensuring a holistic approach to quality enhancement in learning and teaching *Psychological and Educational Bases of Academic Performance* Colsell Sanders,1961 **Engineering News-record** ,1922 **Attracting and Keeping the Best Teachers** Anna Sullivan,Bruce Johnson,Michele Simons,2019-08-26 This book challenges dominant thinking about early career teachers and their work It offers an in depth and critical analysis of policies concerning the work of early career teachers and how they are supported during this critical period when they are highly vulnerable to leaving the profession Moreover the book provides examples from actual practice that illustrate how to help early career teachers make a successful transition into the profession These practices promote early career teachers development and help the profession as a whole to capitalize on the new knowledge and skills that these teachers bring to their classrooms and their students The book is divided into two main parts Part 1 deals with the difficult to define process of retaining early career teachers and its respective chapters consider this broad issue from an international perspective They explore how policies and practices have an impact on what happens in schools and what it means to be a teacher and to teach In turn Part 2 focuses on the need to reconsider the policies and practices that create the problem of early career teachers and offers alternative ways forward Each chapter addresses a specific aspect of the early career teacher retention issue contributing to a greater understanding of how we can rethink the work of early career teachers so that they can more successfully transition into the profession **ACER Research Series** Australian Council for Educational Research,1961 **The American Journal of Insanity** ,1916 Includes section Book reviews **Science** ,1923 Vols for 1911 13 contain the Proceedings of the Helminothological Society of Washington ISSN 0018 0120 1st 15th meeting *The Postmodern Art of Imants Tillers* Graham Coulter-Smith,2002 The strategy of postmodern appropriation that burgeoned into an international style in the 1980s is currently epitomised by the work of New York artists such as Cindy Sherman Barbara Kruger Hans Haacke and David Salle This book examines the parallel yet highly original evolution of Australia s leading appropriationist Imants Tillers The author argues that whereas the New York school was predominantly based on the appropriation of mass media imagery from 1975 onwards Tiller turned to the appropriation of fine art imagery While the New York school was primarily oriented towards a deconstruction of the ideological signs of mass media Tillers pioneered an alternative Australian school of appropriation based on the deconstruction of authorship Coulter Smith also argues that the lack of authorial presence that arises out of Tillers approach foregrounds the role of the viewer in the construction of meaning and in so doing

expands the discourse of appropriation into the multi dimensional space of intertextuality BOOK JACKET **Analytical NMR** L. D. Field,S. Sternhell,1989-09-04 Reviews the state of the art in analytical NMR including many specialist applications in NMR spectroscopy Emphasizing actual practice with modern instruments the text presents the fundamentals of NMR experimental procedures for various applications and NMR automation Considers a wide range of applications of NMR from the simplest uses in quality control to advanced pulsed experiments for examination of complex mixtures and biological specimens New South Wales Government Gazette ,1904 International Series of Monographs on Pure and Applied Biology ,1973
